November 2025	EFSA	EFSA to consider expanding current instructions on Report generation in the **Manuals**	In progress Review of manuals ongoing
November 2025	MS (DE)	BfR to clarify the issue with the analytical methods section	Not started

TERMS OF REFERENCE REFRESH AND REMINDERS

- A **single document** merging the ToR of the Pesticide Steering Network and the PSN IUCLID sub-group will replace the previous ToR.
- The **ToR content** remains **unchanged**; only minor restructuring will be carried out and one obsolete sentence will be removed. The removed sentence refers to the absence of expressions of interest and is no longer applicable following the appointment of an industry representative by EACL in January 2025.
- **Timeline**: As the PSN IUCLID is a subgroup of the PSN, its duration will be now aligned with that of the main PSN network (equal or shorter), in line with the updated EFSA Management Board decision.

NEW

Two important **reminders**:

1) Industry representatives are expected to raise **issues of relevance to all associated members**, rather than matters related to individual companies only
2) Up to **four representatives** per Member State or industry association may be nominated as members
