

EU Risk Assessment Agenda: **Funding opportunities across the EU and its Member States**

European Research Council (ERC) network of National Contact Points (NCAs)¹.

ERC's NCPs are independent organisations of different nature (Ministries, Academies of Science, Research agencies, etc) that act as information providers to ERC applicants in their native language. They are based in all EU countries and Associated States, as well as in some non-European countries.

NCPs do not represent the ERC. Their mission is to raise awareness, inform and advise on ERC funding opportunities at a national and local level.
