

Developing EU Risk Assessment Agenda: How best use the outcome of the Delphi study

**Andrea Gross-Bošković,
Advisory Forum Discussion Group
(AFDG) on EU Risk Assessment
Agenda**

59th Meeting of Advisory Forum

EFSA, Parma, 8-9 March 2016

MEETING OF THE AFDG ON THE DELPHI STUDY

- **58th Advisory Forum**
 - Presentation of the outcomes of the Delphi study
 - Agreed to discuss on how will use the outcome of the Delphi study
- **Teleconference on 26 February**
- **Participants:**
 - 6 Member States: HR, GE, IT, SL, SE and NL
 - Apologises: FR, LV and PT, and Tony Hardy (Scientific Committee)

MEETING OF THE AFDG ON THE DELPHI STUDY

The discussion

- on Delphi study outcome;
- use of the list with MS;
- interagency and international cooperation

CONCLUSIONS

Questions answered

- Should the list of 28 topics be considered as a MS list?
- Should the list be further refined or interpreted by the group?
- Should the joint projects with the MS be confined to only topics on the list?

PROPOSALS FOR MANAGING THE ONGOING PROCESS

■ **MS interest**

- to open the list to the AF members to indicate national interest;
- to receive concrete suggestions from MS to work on specific areas through written procedure;
- MS to take the lead and invest resources; and
- to open the list for registration.

■ **Funding opportunities**

- Mapping the funding at national, EU and International level
- FP in May 2016: Overview of national funding

■ **Consultation**

- EFSA:EU level external partners, NGOs after the publication, international after the national consultation

NEXT STEPS

- MS to adopt a topic to take lead (at least one member per topic)
- identification of interested partners to collaborate
- work towards identifying activities through joint projects, forthcoming RA activities, annual work plan
