

EFSA Stakeholder Engagement Approach

8th Roundtable with NGOs
21 June 2016

EFSA 2020 STRATEGIC OBJECTIVES

Prioritise public engagement in the process of scientific assessment.

Work area: Provision and communication of scientific advice for general risk assessment priorities and regulated products.

Widen EFSA's evidence base and maximise access to its data.

Work area: Data collection and evidence management.

Build the EU's scientific assessment capacity and knowledge community.

Work area: Cooperation and expertise management.

Prepare for future risk assessment challenges.

Work area: Preparedness and methodological development.

Create an environment and culture that reflects EFSA's values.

Work area: Governance, management, support services and coordination.

10 YEARS ON

WHAT WORKED WELL

Regular (3x year) forum for dialogue

Good relations between the members and EFSA

Input to EFSA's Work Programmes
