

EFSA Journal development

**Management Board Meeting
5 October 2016**

EFSA JOURNAL

Publishes and archives EFSA's work

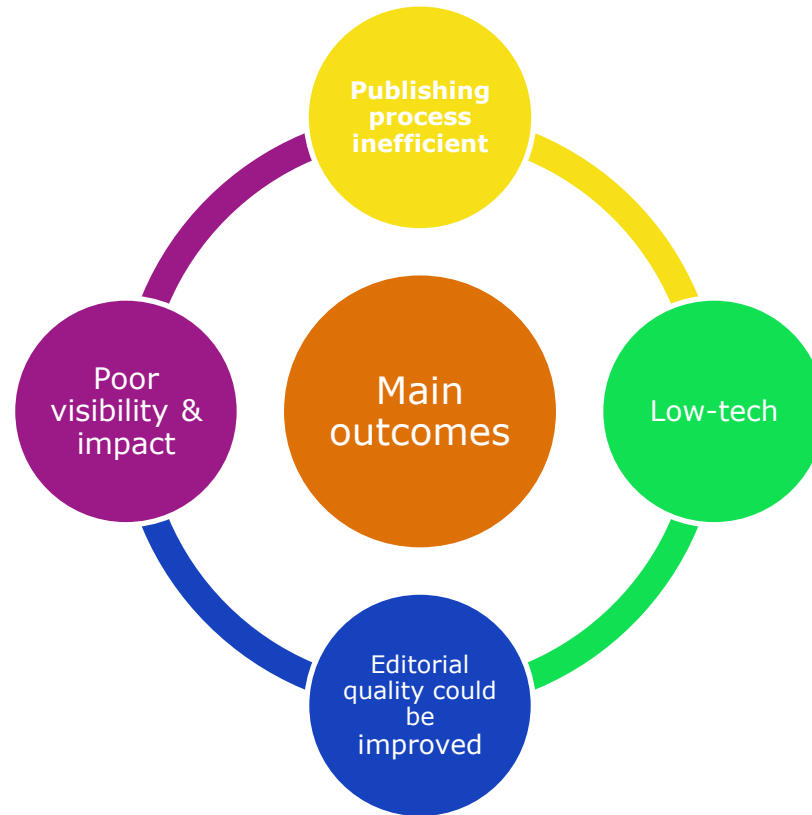

Engages with the scientific community

Provides visibility and impact for EFSA's work

Platform for open risk assessment

REVIEW 2014

RECOMMENDATIONS

Centralise

- Establish central editorial team
- Reduce editorial burden on science units

Explore outsourcing options

- Analyse market
- Launch call for tender

Reengineer workflows

- Increase efficiency
- New tools
- Mitigate plagiarism risk

THREE ELEMENTS IN CONTRACT

1. Production

- Editorial
- Typesetting

2. Journal hosting

- Wiley Online Library
- Ongoing platform development

3. Impact in scientific community

SAFEGUARDS

EFSA retains full editorial control

Journal remains open access

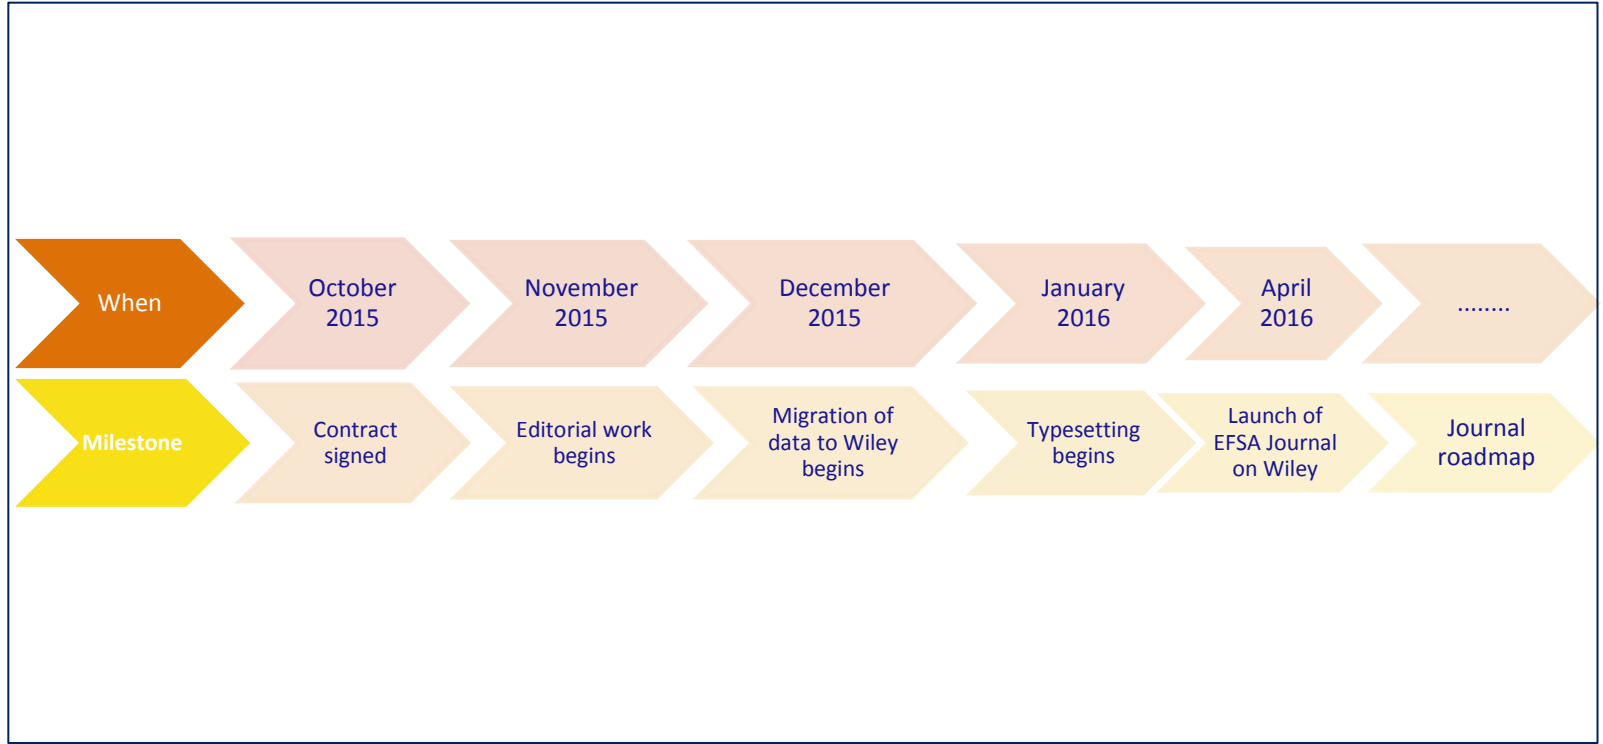

Visual identity is clearly EFSA's

PROJECT TIMELINE

ROADMAP

Editorial quality

- Increasing editorial input prior to adoption
- Clearer abstracts and summaries
- New authorship guidelines
- Pilot plain language summaries

Impact

- Expand usage statistics to include societal impact, citations
- Expand coverage in key databases
- Include EFSA Journal in the social media programme
- Use of Wiley marketing services: mailings, events, social media etc.

Journal Platform

- Next generation journal platform in early 2017
- Better design, customisable
- Open data ready: linkage to data, protocols etc.
- Better connectivity with EFSA website

Efficiency

- Streamlined workflows
- Optimising the use of publisher services
- Better authoring tools
