SCIENCE STRATEGY AND COORDINATION

AMENDMENTS TO THE ARTICLE 36 LIST OF ORGANISATIONS EXECUTIVE SUMMARY

Substantial changes and new designations of organisation to be included into the Article 36 list of competent organisations, which may assist the Authority with its mission, requires the endorsement of the Management Board based on the proposal from the EFSA's Executive Director. One substantial change and the two new designations are described in the document that follows.

The revised Article 36 list of organisations including all changes is presented for the adoption of the Management Board in Annex I.

In addition and in accordance with the Management Board decision of 18 December 2008, the Management Board must also be informed of technical changes adopted by the Executive Director in her recent Decision of 11/11/2011. Technical changes are summarised in Annex II and are already reflected in the revised list presented in Annex I.

SCIENCE STRATEGY AND COORDINATION

NEW ORGANISATION DESIGNATIONS FROM SWEDEN AND THE UNITED KINGDOM AND SUBSTANTIAL CHANGE TO AN EXISTING ORGANISATION FROM THE UNITED KINGDOM FOR THE ARTICLE 36 LIST

The Article 36 list was initially drawn up by the Decision of the Management Board of 19 December 2006 following the procedure set out in Commission Regulation (EC) 2230/2004; the list is regularly reviewed by the Member States, including for new designation proposals and changes to existing organisations.

I. New designations for the Article 36 list

The Permanent Representation of Sweden has officially notified EFSA of a new designation proposal for the Article 36 list for the following competent organisation:

1. Linnaeus University, School of Natural Sciences, a school of a public university. The annual budget includes 10% from non governmental sources.

The Permanent Representation of the United Kingdom has officially notified EFSA of a new designation proposal for the Article 36 list for the following competent organisation:

2. University of Hull, Department of Diabetes and Endocrinology, a department of a public university. The annual budget includes 42% from non governmental sources (of which 30% comes from public and 70% from private sources).

EFSA has screened the new designation proposals in order to ensure that they comply with the criteria set out in Article 1(1) of Commission Regulation 2230/2004¹. Following this screening, the designated organisations were found to meet all the criteria and are therefore considered to be eligible for inclusion in the Article 36 list.

With regards to the criterion B, designations have been considered to be "legal entities pursuing public interest objectives" if the organisations fall into the following categories:

- Public/ Governmental organisations and Foundations;
- Universities (including Associated organisations);
- Certified public interest organisations (ex: charities, organisations empowered with statutory duties).

¹ The criteria the designated organisations have to meet can be described as follows:

A) They must "carry out scientific and technical support tasks in the fields within the mission of the European Food Safety Authority";

B) They must be "legal entities pursuing public interest objectives" and be able to ensure that the "tasks entrusted to them by the Authority will be performed with independence and integrity";

C) They must "possess a high level of scientific or technical expertise in one or several fields within the Authority's mission";

D) They must "have the capacity to operate in a network on scientific actions".

II. Substantial change to an existing organisation on the Article 36 list

The Permanent Representation of the United Kingdom has officially notified EFSA of a substantial change regarding:

1. The Veterinary Laboratories Agency, which on 01/04/2011 has merged with Animal Health (an organisation that is not included on the Article 36 list). The resultant entity is a governmental organisation that is called **Animal Health and Veterinary Laboratories Agency**. The annual budget includes 5% from non governmental sources.

EFSA has screened the profile of the new entity in order to ensure that the new entity complies with the criteria set out in Article 1(1) of Commission Regulation 2230/2004. Following this screening, the new entity was found to meet all the criteria and is therefore considered to be eligible for inclusion in the Article 36 list.

III. Conclusion

The Board is therefore requested to approve the updated list of organisations (see Annex I) after:

- adding on the Article 36 list the designated organisations by Sweden and the United Kingdom.
- replacing the Veterinary Laboratory Agency with the Animal Health and Veterinary Laboratories Agency as notified by the United Kingdom.

The Board is also informed of the technical changes adopted by the Executive Director in her recent Decision of 11/11/2011 (see Annex II).

Art. 36 of Regulation EC 178/2002 and Art. 1 of Regulation EC 2230/2004

LIST OF COMPETENT ORGANISATIONS DESIGNATED BY THE MEMBER STATES WHICH MAY ASSIST THE AUTHORITY WITH ITS MISSION

Member State		Competent Organisations ¹
	1.	Agentur für Gesundheit und Ernaehrungssicherheit Gmbh (AGES - Austrian Agency for
AUSTRIA	'-	Health and Food Safety)
	2.	Umweltbundesamt GmbH (Austrian Federal Environment Agency Ltd)
BELGIUM	1.	Belgian Federal Agency for the Safety of the Food Chain (FASFC) and Scientific Committee of the Federal Agency for the Safety of the Food Chain (SciCom-FASFC)
	2.	Belgian Superior Health Council
	3.	Belgian Biosafety Advisory Council
	4.	Commission for Advice on Plant preparations
	5.	Scientific Institute of Public Health
	6.	CODA-CERVA (Veterinary and Agrochemical Research Centre)
	7.	Walloon Agricultural Research Centre (CRA-W)
	8.	Institute for Agricultural and Fisheries Research (ILVO)
	9.	Ghent University - Faculty of Veterinary Medicine
	10.	Ghent University - Laboratory of Phytopharmacy / Fytolab
	11.	Ghent University - Faculty of Pharmaceutical Sciences, Department of Food Analysis
	12.	Ghent University - Faculty of Medicine and Health Sciences
	13.	Ghent University - Faculty Bioscience Engineering
	14.	Centre d'Economie Rurale (CER Group)
	15.	Gembloux Agricultural University - Laboratory of Ecology
	16.	Gembloux Agricultural University - GLP Pesticide Science Laboratory
	17.	Université Catholique de Louvain - Unité de Phytopathologie
	18.	K.U.Leuven
	19.	Zootechnical Centre - K.U.Leuven R&D / Laboratory Quality Care in Animal Production
	20.	University of Liège - Faculty of Veterinary Medicine
	21.	Université Libre de Bruxelles - Biological Control and Spatial Ecology Laboratory

¹ When only a specific part of an organisation is designated, it is indicated in the same line; where more parts of an organisation are designated, they are listed as sub-entries.

(including technical updates approved by EFSA's Executive Director as of 11/11/2011)

Submitted for adoption in Warsaw, Poland on 15 December 2011

For the EFSA Management Board

Prof. Diána Bánáti Chair of the Management Board

EXECUTIVE DIRECTOR

Decision of the Executive Director on the policy of the European Food Safety Authority on the technical changes to the list of organisations designated by the Members States which may assist the Authority (Article 36 list)

In view of the Decision of the Management Board of the 18 December 2008¹ concerning the delegation given by the Management Board to the EFSA's Executive Director to adapt the list of competent organisations designated by the Member States which may assist the Authority (Article 36 list) in case of technical changes submitted by a Member State on one of the existing entities on the list;

In view of the current Article 36 list;

In view of a request sent by an existing Article 36 organisation from Latvia in which EFSA was informed of a technical update of the profile, with no change in the criteria for inclusion in the Article 36 list.

It is hereby decided:

• to update the profile of Riga Stradiņš University from Latvia, as an existing organisation on the Article 36 list of competent organisations.

In conclusion:

• to carry out all the requested changes in the EFSA Article 36 database for the organisation named above.

Done at Parma, on 11/11/2011

Catherine Geslain-Lanéelle

SIGNED

¹ Decision on the "technical changes to the list of competent organisations designated by the Member States which may assist the Authority", Annex 3 of the Management Board document: mb 18 12 08 item 8 doc 6b - Update on Art. 36 list of organisations
