

Information on field visit and allocation of groups

Christian Wolf & Benedikt Giessing RIFCON GmbH; Germany
Peter Edwards, Syngenta; UK

Why a field visit?

- Demonstration of different field techniques to measure ecological data for risk assessments
- Illustration how an agricultural environment (citrus plantation) looks in terms of wildlife activities
- Discussion about field data and data collection with experienced people 'on location'

Where will we go?

What can be seen?

- Background on citrus agronomy and landscape
- Transect counts for focal species
- Bird trapping and tagging for PT
- Radio tracking for PT
- Dietary analysis of samples for PD
- Mammal trapping for focal species
- Sampling of arthropods as potential food source for wildlife

Timeline and Schedules

**Bus starts at 5:30 a.m.
at the hotel!!!!!!!!!!!!**

Allocation of groups & introduction by Peter Edwards

Groups move from station to station

Picnic and discussions in the field

Return to hotel in the afternoon

Allocation of groups

Group 1

Markus Ebeling

Ian Barber

Elena Alonso-Prados

Gunilla Ericson

Mark Clook

Lone Munk

Zita Varanaviciene

Group 2

Peter Edwards

Joe Crocker

Franz Streissl

Jacoba Wassenberg

Rain Reiman

Ann Verstraete

Allocation of groups

Group 3

Roger Murfitt

Spencer Mortensen

Manousos Foudoulakis

Christine Fuell

Brian Woolacott

Lina Wendt-Rasch

Teri Vrabcheva

Group 4

Kees Romijn

Andy Hart

Domenica Auteri

Anja Bartels

Dace Bumane

Rastislav Sabo

Allocation of groups

Group 5

Juan Pascual

Kris Brugger

Susana Pestanudo

Tony Hardy

Muriel Dunier-Thomann

Bo Svenning Petersen

Group 6

Jan Dieter-Ludwigs

Steve Norman

Jose Tarazona

Andreas Höllrigl-Rosta

Peter Lawlor

Alois Stanek

Allocation of groups

Group 7

Michael Riffel

Phil Prosser

Vanessa Sulmon

Robert Luttik

Leona Mattsoff

Csaba Szentes

**Have an
interesting day
and fruitful
discussions!!**
