

Parma, 25<sup>th</sup> September 2014

**MANDATE OF THE STANDING WORKING GROUP<sup>1</sup> ON RECYCLING PROCESS OF THE PANEL ON FOOD CONTACT MATERIALS, ENZYMES, FLAVOURINGS AND PROCESSING AIDS**

**Type of the Charter: Evaluation of the applications on recycling of plastics according to Commission Regulation (EC) No 282/2008 of 27 March 2008 on recycled plastic materials and articles intended to come into contact with foods and amending Regulation (EC) No 2023/2006.**

In accordance with Title II of the Executive Director Decision concerning the selection of members of the Scientific Committee, Scientific Panel and external experts to assist EFSA with its scientific work<sup>2</sup>, the external scientific experts providing the required expertise could be invited on:

- *an ad hoc basis for a single meeting or for the duration of the work on a specific mandate or project, or*
- *on a longer term when the required expertise is needed for more than one mandate or project.*

When a working group of experts is required for more than one mandate, it is called a Standing Working Group.

The FIP Unit is requested to manage and support the administrative and scientific activities of the Standing Working Group on Food Contact Materials. The FIP Unit will organise the meetings of the Standing Working Group and assist in the preparation of scientific outputs in agreement with the respective mandates addressed by the Standing Working Group. The Head of Unit will ensure coordination with work programs of other units so that when Working Groups of other Panels/Scientific Committee assess overlapping substances or organisms the Standing Working Group is provided with applicable information and data from other Panels/Scientific Committee.

---

<sup>1</sup> A Standing Working Group is a Working Group of experts created on the basis of a decision of the corresponding scientific Panel, designed to coordinate discussions and provide scientific contributions on specific related mandate(s), for a set period of time within the three years mandate of the Panel.

## MANDATE OF THE STANDING WORKING GROUP ON RECYCLING OF PLASTICS

### Background:

The European Food Safety Authority (EFSA) is the keystone of European Union risk assessment regarding food and feed safety, animal health and welfare, nutrition, plant protection and plant health. In close collaboration with national authorities and in open consultation with its stakeholders, EFSA provides independent and transparent scientific advice and clear communication on existing and emerging risks associated with the food chain. On request from the European Commission, European Parliament or Member States or on its own initiative<sup>3</sup>, EFSA provides scientific opinions on issues falling under its remit.

The Panel on Food Contact Materials, Enzymes, Flavourings and Processing Aids (CEF), which deals with questions on the safety of use of materials in contact with food, enzymes, flavourings and processing aids, and also with questions related to the safety of recycling processes, confirmed during its 48<sup>th</sup> Panel Plenary Meeting (inaugural meeting of the CEF Panel mandate 2014-2017) the need of a Standing Working Group (SWG) on Recycling of Plastics related to the evaluations of applications under Commission Regulation (EC) No 282/2008 of 27 March 2008 on recycled plastic materials and articles intended to come into contact with foods and amending Regulation (EC) No 2023/20064 and Regulation (EC) No 1935/2004 of the European Parliament and of the Council of 27 October 2004 on materials and articles intended to come into contact with food and repealing Directives 80/590/EEC and 89/109/EEC<sup>5</sup>.

### Terms of reference:

The objectives of the Standing Working Group on Recycling of Plastics is to perform the following preparatory work for consideration by the CEF Panel:

To carry out safety assessments of recycling processes as required under the applicable European Regulations (see above).

To deliver draft scientific opinions on the recycling processes examined.

In order to fulfil its objectives, the above mentioned Standing Working Group should consist of members with expertise in the following scientific areas: polymer chemistry, analytical chemistry, migration modelling, engineering of recycling processes and chemical engineering. Additional expertise might be required for specific applications/mandates. Upon request from EFSA, hearing experts might be invited to meetings of the Standing Working Group to clarify outstanding issues.

**Scope in EFSA's work and outsourcing programme:** The Standing Working Group will assess the available relevant scientific information and data provided to EFSA by Members States and stakeholders, as well as those submitted through the applicants' dossiers or through public calls for data. As appropriate, EFSA will outsource collation or analysis of scientific information in order to support the scientific assessment of the Standing Working Group.

<sup>3</sup> Regulation (EC) N°178/2002 of the European Parliament and the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority and laying down procedures in matters of food safety. OJ, L 31, 1.2.2002, p. 1-24.

<sup>4</sup> OJ L 86, 28.3.2008, p. 9-18

<sup>5</sup> OJ L 338, 13.11.2004, p. 4-17

**IT impact: No**

**Timeline:** At the onset of a new Panel mandate (during an inaugural meeting) there is a need to confirm the continued need for all ongoing Working Groups. There is also a need for the Panel Chair to appoint a chair and vice-Chairs of all Working Groups. It is the task of a newly appointed or re-confirmed Chair of a Standing Working Group in collaboration with the respective Head of Unit to select members of the Working Group following the procedure as laid down in the Executive Director Decision 2014<sup>6</sup>.

Scheduled Standing WG meetings in the 3 months period following the inaugural meeting will be conducted by experts selected during the previous Panel mandate.

**Expected deliverables (e.g. scientific output, scientific article):**

Scientific contributions, which will be submitted for consideration to and possible adoption by the CEF Panel.

**Declarations of interests for external experts (only if applicable):**

The Decision of the Executive Director implementing EFSA's Policy on Independence and Scientific Decision-Making Processes regarding Declarations of Interests<sup>7,8</sup> will be followed while setting up and operating this Standing Working Group.
