### Preparation of a guidance of the PPR Panel on the establishment of the residue definition for dietary risk assessment (EFSA-Q-2013-01001)

The Working Group (WG) agreed to ask for the nomination of a hearing expert in the field of (Q)SAR in order to receive an update on the application of (Q)SAR for the genotoxicity assessment of chemicals.

The WG reviewed the proposal for the exclusion of genotoxicity that will be presented for feedback at the Standing WG on Genotoxicity of the Scientific Committee.

The WG discussed the boundary conditions for exposure analysis and agreed that the level of uncertainties in using an exposure based approach to identify the metabolites that should be toxicologically characterised might be very high.

The WG discussed the draft text of the guidance covering the toxicological assessment of metabolites.

(Agreed on 07/10/2014)

#### **Participants**

- Working Group Experts:
  - Thomas Kuhl (chair), Susanne Hougaard Bennekou, Alberto Mantovani, Bernadette Ossendorp, Metka Filipič (18<sup>th</sup> morning only by TC)
- Hearing Experts:
  - none
- European Commission and/or Member States representatives:
  - none
- EFSA:
  - Pesticides Unit: Anja Friel, Andrea Terron, Juan Parra Morte

#### 1. Welcome and apologies for absence

The Chair welcomed the participants. Apologies were received by Metka Filipič who participated to the working group (WG) on the 18<sup>th</sup> morning by teleconference.

#### 2. Adoption of agenda

The agenda was adopted without changes.

#### 3. Declarations of interest

In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes<sup>1</sup> and the Decision of the Executive Director implementing this Policy regarding

Declarations of Interests<sup>2</sup>, EFSA screened the Annual Declaration of interest and the Specific Declaration of interest filled in by the experts invited for the present meeting. No conflicts of interests related to the issues discussed in this meeting have been identified during the screening process or at the oral Declaration of interest at the beginning of this meeting.

#### 4. Scientific topic(s) for discussion

Preparation of a guidance of the PPR Panel on the establishment of the residue definition for dietary risk assessment (<u>EFSA-Q-2013-01001</u>)

The following points were presented and discussed:

#### a) Genotoxicity and general toxicity:

- Report on the case studies following the so far proposed strategy
- Update on (Q)SAR, grouping and read across approach
- Genotoxicity strategy; proposal<sup>3</sup>
- Genotoxicity and isomers; proposal
- General Toxicity decision scheme: proposal

#### b) Isomers:

Up-to-date experience, data requirements and general approach

#### 5. Next Meeting

An *ad-hoc* meeting will be held in Parma on August 4<sup>th</sup>. The meeting will be dedicated to the in depth evaluation of the examples following the proposal for the possible application of (Q)SAR, grouping and read across.

#### Scientific Panel on Plant Protection Products and their Residues

Minutes of the 2<sup>nd</sup> meeting of the Working Group for the preparation of a guidance of the PPR Panel on the establishment of the residue definition for dietary risk assessment.

Held on 25 (afternoon) and 26 (morning only) March 2014, Parma

(Agreed on 16 June 2014)

#### **Participants**

- Working Group Experts:
  - Thomas Kuhl (chair)
  - Susanne Hougaard Bennekou
  - Alberto Mantovani
  - Bernadette Ossendorp
  - Metka Filipc (26<sup>th</sup> morning only)
- Hearing Experts:
  - none
- European Commission and/or Member States representatives:
  - none
- EFSA:
  - Pesticides Unit: Anja Friel, Andrea Terron, Juan Parra Morte,

#### 2. Adoption of agenda

The agenda was adopted without changes.

#### 3. Declarations of interest

In accordance with EFSA's Policy on Independence and Scientific Decision-Making Processes<sup>1</sup> and the Decision of the Executive Director implementing this Policy regarding Declarations of Interests<sup>2</sup>, EFSA screened the Annual Declaration of interest and the Specific Declaration of interest filled in by the experts invited for the present meeting. No conflicts of interests related to the issues discussed in this meeting have been identified during the screening process or at the Oral Declaration of interest at the beginning of this meeting.

#### 4. Adoption of the minutes of the last Working Group meeting.

The minutes were agreed.

#### 5. Scientific topic(s) for discussion

Preparation of a guidance of the PPR Panel on the establishment of the residue definition for dietary risk assessment (EFSA-Q-2013-01001)

#### Update and explanation of the strategy chart

The working group discussed the overall strategy approach to be applied in the guidance.

#### **Genotoxicity strategy**

The working group discussed options to define gates and triggers for the genotoxicity hazard assessment and decision tree. The different scenario proposed will be tested in different case studies before a final decision will be taken. Inclusion of (Q)SAR, grouping and read-across were considered as possible tools to apply in the genotoxicity hazard assessment.

Presentation and discussion of the relevant information extracted from guidance documents and opinions and discussion on steps forward

This was presented and discussed by the working group.

Next meeting will be held in Berlin on 17<sup>th</sup> (afternoon) and 18<sup>th</sup> (morning) of June.

#### 4. Nomination of the rapporteur/s

The Working Group members nominated the rapporteurs.

#### 5. Scientific topic(s) for discussion

Preparation of a guidance of the PPR Panel on the establishment of the residue definition for dietary risk assessment (<u>EFSA-Q-2013-01001</u>)

### 5.1 Develop common understanding of the content (scope), tasks required, and work plan for accomplishment of the mandate

The OECD guidance was recognized by the Working Group as a 'cornerstone' for the development of a guidance document on the residue definition for risk assessment.

The Working Group agreed that the 2012 Scientific Opinion on the relevance of metabolites will represent an important tool for the development of the guidance. However, the Working Group recognised and agreed that exposure to metabolites can only be calculated with many uncertainties, making the use of a TTC approach not workable as a sole criteria in a standard approach.

The guidance would represent a practical instrument for applicants, risk assessors and regulatory authorities to adopt the pesticide residue definition for risk assessment based on a combination of scientific tools. The guidance should also be used for identifying cases where further experimental data are needed.

### 5.2 Discuss and define the outline of the guidance and assignment of the task

The Working Group discussed the breakdown structure of the guidance document, and tasks were assigned to the members.

#### 6. Next Meeting

Next meeting will be held in Parma on 25<sup>th</sup> (afternoon) and 26<sup>th</sup> (morning) of March 2014.
