

79th Advisory Forum meeting
Virtual meeting, 03-04 March 2021

HEALTH • ENVIRONMENT • SOCIETY

Update on Scientific Conference (21-24 June 2022, Brussels & online)

Marta Hugas & Moez Sanaa

Organiser

Co-organisers

Our idea with the Conference is to ...

#OneEU2022

1

Take **a step towards** the gradual implementation of the '**One Health – One Environment**' approach

2

Co-shape the event with EFSA's Sister Agencies (ECDC, ECHA, EEA & EMA) and the JRC with the involvement of Member States and international partners

3

Foster engagement and collaboration amongst experts of different sectors (public health, animal health, plant health, and the environment) and expertise (natural and social sciences)

4

Prepare for the future and identify forward-looking actions for risk assessors and risk managers (incl. MEPs) **within the framework of sustainability, the European Green Deal (incl. the F2F Strategy)**

3| Involvement of the other ENVI Agencies & JRC

#OneEU2022

Opening plenary session

- ECDC, ECHA, EEA & EMA
- JRC

Social sciences

- ECDC
- JRC

Engaging toward a new food safety ecosystem

Open science: Learning causality from heterogeneous data

- EMA

Safety assessment of innovative products & technologies

- JRC

Combined exposure to multiple chemicals

- ECHA
- JRC

NAMs

- ECHA & EMA
- JRC

Systems-based approach for ERA

- ECHA & EEA
- JRC

AI & big data

- ECDC, ECHA & EMA
- JRC

Gut/soil microbiome

- JRC

Securing sustainable & healthy diets for all

- EEA
- JRC

Endocrine disruptors

- ECHA
- JRC

AMR in a food/feed producing environment

- ECDC, EEA & EMA

Disease spread, from drivers to pandemics

- ECDC

Animal welfare & sustainable farming systems

Plant health & global change

- JRC

FW for sustainability assessments

- EEA
- JRC

EU/international research agenda

- ECDC, ECHA, EEA & EMA

Closing plenary session

- ECDC, ECHA, EEA & EMA
- JRC

#OneEU2022

6| Feedback from the Member State Advisory Board First meeting (25 January 2021) – Main points raised

#OneEU2022

Questions

- What makes us unique compared to other stakeholders & scientific events?
- How to make the One Health / One Environment goals operational in practice?

Additional topics to consider

- Safety assessment of products derived from food waste (circular economy)
- Healthy & nutritious diets
- Assessment of risks & benefits, and associated trade-offs

Suggestions on session format

- Let keynote speakers set the scene
- Organise discussion rounds / moderated panel discussions with key experts
- Give matured summary at the end of each session with clear take home messages
