CP 5 ANALYTICAL METHODS

CP 5.1 Methods for the Generation of Pre-Authorisation Data

CP 5.1.1 Analysis of the Plant Protection Product

Please refer to Confidential Document J.

CP 5.1.2 Methods for the Determination of Residues

Not applicable.

No MRLs (aluminium silicate is currently listed on Annex IV of Regulation 396/2005) or residue definitions have been allocated for aluminium silicate (kaolin), based on its use as a plant protection product. No MRLs or residue definitions are proposed as part of the renewal.

Therefore, no analytical methods for the determination of residues are presented.

CP 5.2 Methods for Post-Authorisation Control and Monitoring Purposes

Not applicable.

No MRLs (aluminium silicate is currently listed on Annex IV of Regulation 396/2005) or residue definitions have been allocated for aluminium silicate (kaolin), based on its use as a plant protection product. No MRLs or residue definitions are proposed as part of the renewal.

Therefore, no analytical methods for the determination of residues are presented.
