Physical person submitting confidentiality requests in relation to the scope of the Portalino shall send a registration request by email to servicedesk@efsa.europa.eu specifying:

**Personal details**

- First Name
- Last Name
- Email address

In addition, specify in the registration request the scope of your submission (see slide 3)
How to Register

Organisations & Private Citizens

Send Registration Request

servicedesk@efsa.europa.eu

EFSA validates the request and provides credentials

Connect to: https://confportal.efsa.europa.eu/
Both a confidential and a non-confidential version of the documents must be submitted. The files for the confidential and the non-confidential version, irrespective of their format, must be compressed in a zip file prior to being uploaded in the tool.

Confidential/Full version
- contains all the data and information to be used by EFSA during the risk assessment process to which the submission relates
- each excerpt of the text in relation to which a confidentiality request is made needs to be clearly marked

Non confidential version
- contains only the data and information that can be made public
- information or data for which a confidentiality request is made are not visible
Organization owning the data in the submission through Portalino will be chosen from a drop-down list. Check that details corresponds to your organization.

Check the email of the contact person. Contact servicedesk@efsa.europa.eu if changes are needed.

Create each confidentiality request specifying:
- The name of the file in which the request is present
- The ground
- The justification for each ground
- The excerpt of the text claimed confidential
- The related section where the text claimed confidential may be found
- Statements confirming compliance with the substantive criteria set out in EFSA’s practical arrangements concerning transparency and confidentiality.
Click “Submit” to send your submission to EFSA. Once the confidentiality request has been submitted no further changes will be necessary.

You will receive an email each time a new document created during the confidentiality assessment process will be uploaded in your area of the Portalino.

All the correspondence with EFSA will be performed out of the Portalino.
For DCF Users– Confidentiality Requests in Portalino

DCF – Data Collection Framework

- Confidentiality can be requested in Portalino only for datasets owned by “applicants”
- Submissions in DCF can contain large amount of data per submission
- Submissions in DCF can be uploaded multiple times while a call for data is ongoing
- Requesting confidentiality in Portalino for each record or field of a collection of data might be cumbersome and less efficient

Confidentiality requests in Portalino will be submitted in relation to the data structure

Confidential/Full version zip file

| ColumnName1 | ColumnName2 | ColumnName3 | ColumnName.. | ColumnNameN |

Non confidential version zip file

| ColumnName1 | ColumnName2 | ColumnName3 | ColumnName.. | ColumnNameN |
Click here to watch the video tutorial on the Youtube EFSAchannel
The complete/full version of the applications, datasets and documents supporting the mandates shall also be submitted through the specific channel.

In case no confidentiality requests are submitted, all data/information will be proactively published in accordance with Article 38 of the Transparency Regulation.

Portalino can only be used to submit confidentiality requests.
