

2nd PSN IUCLID subgroup meeting – 31 Jan 2022

## Microorganism dossier – New ToC mapping

**Angelo COLAGIORGI**

Scientific Coordinator, PREV Unit

Trusted science for safe food

- The EU's 'farm to fork' strategy aims to reduce dependency on chemical plant protection products, including by enabling biological alternatives (such as microorganisms/microbial PPPs) to be sold in the EU.
- To update the current rules for this purpose, ongoing initiative of EC to **adapt the current data requirements** (in part B of the Annex to Regulations **283/2013** and **284/2013**) to **accommodate the characteristics of the microorganisms** in these products, as they are different to those of chemical active substances.
- Planned Commission adoption: **Q1 2022**
- Planned entry into applicability: **Q4 2022**

## Objectives for Q1 2022:

- Mapping of IUCLID **MPCA** ToC vs new DR on the microbial a.s.
- Mapping of IUCLID **MPCP** ToC vs new DR on the microbial PPP
- Mapping of IUCLID **metabolites** ToC vs new DR and the SANCO/2020/12258 “Guidance on the risk assessment of metabolites produced by microorganisms used as plant protection active substances”

**Call for volunteers** to review the updated working context!!!

Working context changes to be included in the **October 2022** IUCLID release
