

8th March 2022

European stakeholders workshop on New Approach Methodologies (NAMs) for Developmental Neurotoxicity (DNT) and their use in the regulatory risk assessment of chemicals

Trusted science for safe food

- **Q1.** What is necessary for the inclusion of the DNT-IVB as data requirement in different EU legislations (REACH, BPR, pesticides) identification of critical gaps, next steps?
- **Q2.** What could be potential option(s), in the context of the IATA, for the use of DNT-IVB in DNT hazard and risk assessment?
- **Q3.** What would be a suitable tiered approach for using the DNT-IVB in the different regulatory legislations?
 - one approach may not fit to all regulatory frameworks
 - a need to update the current approaches.
- **Q4.** Road map proposal for the integration of the DNT IV-B in the Chemical Risk Assessment in Europe
