

# Scientific Panel on Additives and Products or Substances used in Animal Feed

## Draft Agenda of the 161<sup>st</sup> Plenary meeting

|                |                           |
|----------------|---------------------------|
| Meeting date:  | <b>04 May 2022</b>        |
| Meeting hours: | <b>9:00-18:00</b>         |
| Meeting venue: | <b>Webconference</b>      |
| Chair:         | <b>Vasileios Bampidis</b> |

## Agenda

| No.  | Topic                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.   | Welcome and Apologies for absence                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2.   | Adoption of the agenda                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3.   | Declarations of Interest                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4.   | Report on written procedures since the 160 <sup>th</sup> Plenary meeting                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 5.   | Scientific outputs submitted for discussion and possible adoption                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 5.1. | Botanically defined flavourings from Botanical Group 06 - Laurales, Magnoliales, Piperales for all animal species and categories: Cassia oil ( <a href="#">EFSA-Q-2010-01296</a> , <a href="#">EFSA-Q-2022-00104</a> )                                                                                                                                                                                                                                                                                                                                                                                                |
| 5.2. | Botanically defined flavourings from Botanical Group 06 - Laurales, Magnoliales, Piperales for all animal species and categories: Cinnamon oil ( <a href="#">EFSA-Q-2010-01296</a> , <a href="#">EFSA-Q-2022-00105</a> )                                                                                                                                                                                                                                                                                                                                                                                              |
| 5.3. | Botanically defined flavourings from Botanical Group 06 - Laurales, Magnoliales, Piperales for all animal species and categories: Pepper oil and Pepper oleoresin ( <a href="#">EFSA-Q-2010-01296</a> , <a href="#">EFSA-Q-2022-00106</a> )                                                                                                                                                                                                                                                                                                                                                                           |
| 5.4. | Sepiolitic clay for all animal species ( <a href="#">EFSA-Q-2019-00431</a> )                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 5.5. | BIO-THREE® ( <i>Bacillus subtilis</i> TO-A (BS), <i>Enterococcus faecium</i> T-110 (EF), <i>Clostridium butyricum</i> TO-A (CB)) for chickens for fattening, chickens reared for laying, turkeys for fattening, turkeys reared for breeding and minor poultry species ( <a href="#">EFSA-Q-2020-00556</a> )                                                                                                                                                                                                                                                                                                           |
| 5.6. | Alpha-amylase from <i>Bacillus amyloliquefaciens</i> DSM 9553, <i>Bacillus amyloliquefaciens</i> NCIMB 30251, <i>Aspergillus oryzae</i> CBS 585.94 and <i>Aspergillus oryzae</i> ATCC SD-5374, endo-1,4-beta-glucanase from <i>Trichoderma reesei</i> ATCC PTA-10001, <i>Trichoderma reesei</i> ATCC SD-6331 and <i>Aspergillus niger</i> CBS 120604, endo-1,4-beta-xylanase from <i>Trichoderma koningii</i> MUCL 39203 and <i>Trichoderma longibrachiatum</i> CBS 614.94 and endo-1,3(4)-beta-glucanase from <i>Aspergillus tubingensis</i> MUCL 39199 for all animal species ( <a href="#">EFSA-Q-2020-00836</a> ) |
| 5.7. | Nutrased P (6-phytase) for chickens for fattening, other poultry for fattening, reared for laying and ornamental birds ( <a href="#">EFSA-Q-2021-00538</a> )                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 6.   | New Mandates                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 7.   | Feedback from the Scientific Committee/Scientific Panels, EFSA, the European Commission                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
