Appel d'offres Wildlife and One Health: Wildlife Ecology, Health Surveillance and Interaction with Livestock, Human Population and Environment

Parution d'un appel d'offres EFSA via la plateforme « e-tendering » intitulé « Wildlife and One Health: Wildlife Ecology, Health Surveillance and Interaction with Livestock, Human Population and Environment » (OC/EFSA/BIOHAW/2022/01).

The objectives of the contract resulting from this procurement procedure are:(i) to improve and extend the already started collection of existing published or unpublished data on the ecology, geographical distribution, abundance and structure of selected wildlife species;(ii) where relevant data and information are missing and needed by EFSA, to generate original data with ad hoc field studies;(iii) by using the collected and/or generated data, to perform data analysis and to model the geographical distribution, abundance and structure of selected wildlife species;(iv) to strengthen and foster collaboration on wildlife research activities in the EU and in neighbouring countries;(v) to deliver ad-hoc scientific advice to support EFSA concerning technical questions and advise about possible emerging issues where wildlife could be involved;(vi) to communicate the results achieved during the project by tailoring the language for the different stakeholders.

Cet appel d'offres vise à signer un contrat cadre (FWC) de services d'une durée de 1 an (renouvellement possible jusqu'à 5 fois pour une durée totale maximale de six années consécutives).
Le budget maximum disponible est de 4,200,000 euros pour les 6 ans.
La date-limite pour répondre à cet appel est le **16 décembre 2022**.

Les tâches, livrables et échéances attendus pour chaque lot sont précisés dans les spécifications de l'appel d'offres.

Pour répondre à cet appel, il faut soumettre en ligne via la plateforme électronique <https://etendering.ted.europa.eu/cft/cft-display.html?cftid=12396> une proposition technique, une proposition financière suivant le formulaire joint, et des documents supports démontrant le respect des critères d'éligibilité et de sélection. Tous les documents sont accessibles sous la plateforme e-tendering.

Sachez que le point focal finlandais nous a contactée pour nous faire part du souhait d'une équipe finlandaise de participer à un consortium pour répondre à cet appel :

« A research professor from the Finnish Food Authority, Wild and Aquatic Animal Pathology Section in Oulu, Antti Oksanen, is interested in responding to this call and therefore is willing to be in contact with possible partners (contact Antti Oksanen at antti.oksanen@ruokavirasto.fi) »

In addition ...

A lot of contacts with art36 contact persons in the context of update of their information to be maintained in the list

Insist on the importance of updated information to be kept in the list so as to be able to apply to grants

1. Evolution in the new framework

In the new framework

Principal activities

Area 1, notably 1.2, 1.9

Area 2, notably 2.1, 2.3, 2.5
(focus on identification of
bottlenecks)

Area 3: 3.3

Tailor made activities

Activity 2.8 : dedicated
training for art36 on Grants
and Procurement

Thank you for your attention
