SOME TIPS AND RULES - ONLINE

Keep your **microphone muted and camera off** at all times unless specifically asked by the Chair or an EFSA staff

Keep the **meeting chat box clean**. Use it only to signal technical problems or when indicated by the Panel Chair

Use “raise hand” function to ask the floor to submit questions or comments **when indicated by the Chair**

If you have problems with the connection, exit the meeting and rejoin

Use of headset recommended for better sound quality

**Update of the Guidance
on the assessment of
the Efficacy of feed
additives**

#EFSA_EU

WHY?

WHY NOW?

- **Main reason:** To accommodate the ambitions of the **EU Green Deal**, particularly for the assessment of beneficial effects for the environment and animal welfare, which are now not fully considered.

Proposal for a revision of the **feed additives** Regulation to reduce the environmental impact of livestock farming

Evaluation and revision of the existing **animal welfare** legislation, including on animal transport and slaughter of animals

- To update/refine aspects of the Guidance that according to experience would need to be improved/modify

WHAT?

WHAT?

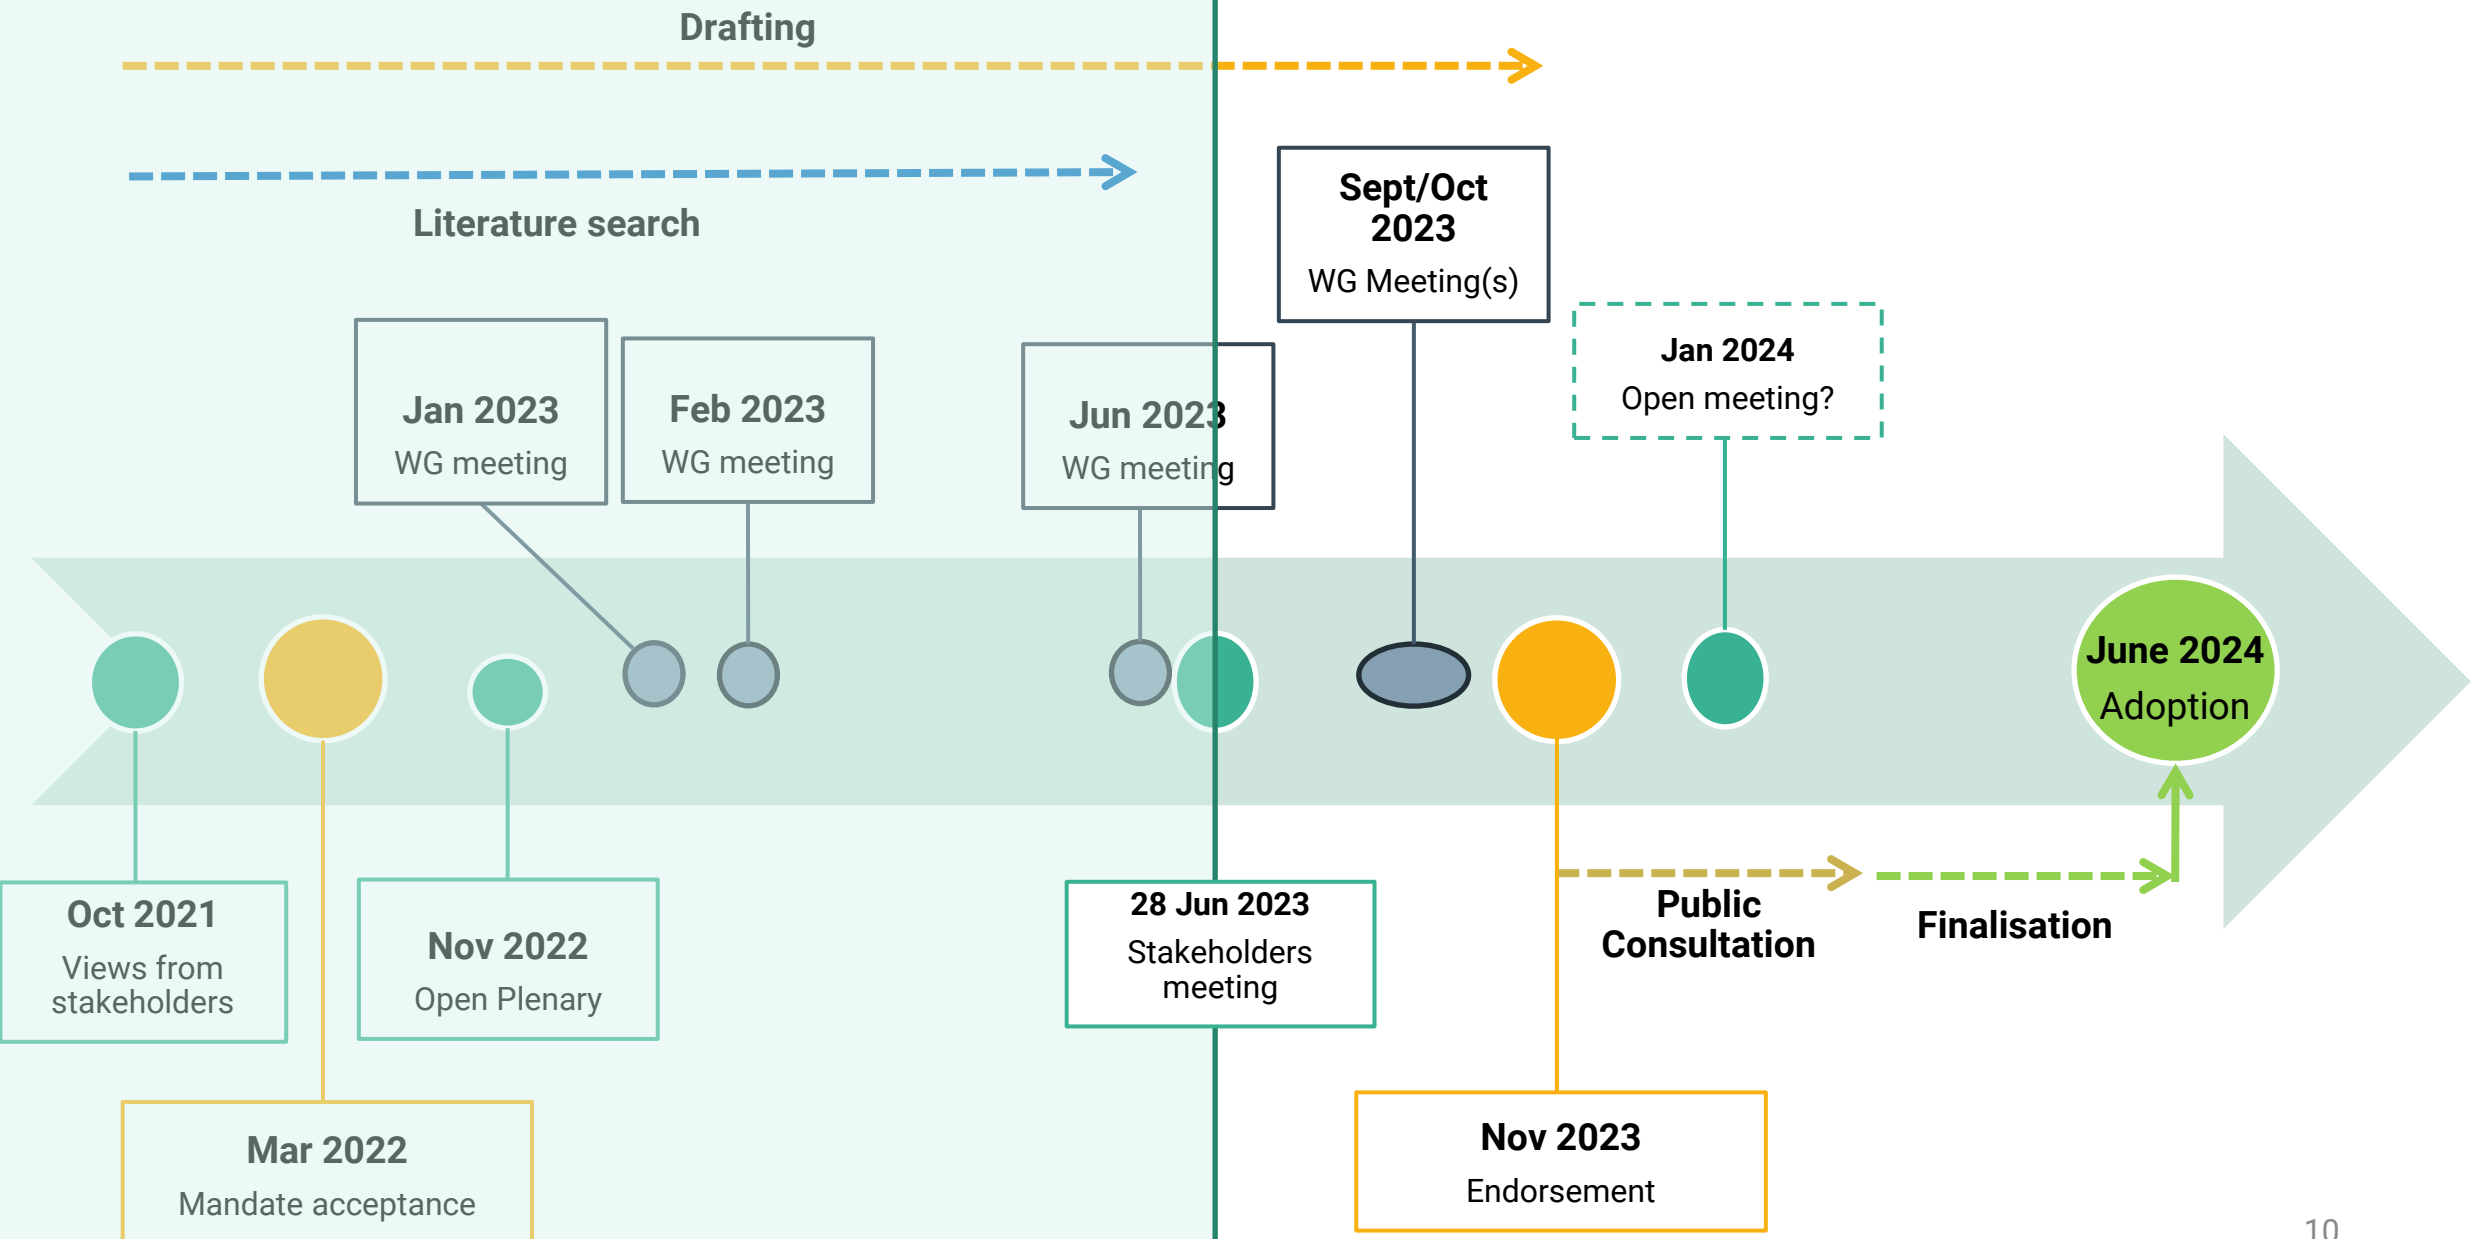

- Clarifications regarding functional groups not included in the previous Guidance or which need to be revisited
 - 1 (n) hygiene condition enhancers
 - 4 (c) substances which favourably affect the environment
 - 4 (e) physiological condition stabilisers (from 2019)
- Requirements to certify the compliance of animal studies with the EU Welfare legislation
- Development of the concepts of Independence and Animal health
- Refinement / reduction of the number of animal studies
- Others (harmonisation between Guidances; insects)

WHEN?

Guidance Efficacy – timeline

Industry's views on the EFSA Guidance
