

Vitenskapskomiteen for mat og miljø

Norwegian Scientific Committee for Food and Environment

Mandate for the ongoing assignment of mapping nutrients,
food additives and contaminants found in plant-based and
gluten-free food products

Hilde Mellegård

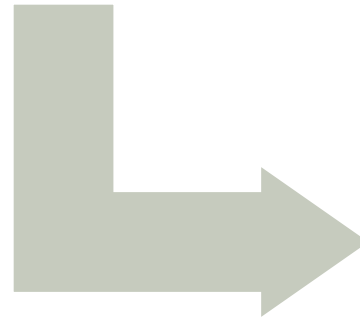

Chief Scientific Coordinator for Food and Feed

88th Plenary Meeting of the EFSA Advisory Forum | EFSA, Stockholm

27-28 June 2023

Background

Consumer demand
for more
sustainable and/or
healthy product

New food products
and eating habits

How does it affect
our intake of
nutrients, additives
and contaminants?

The Norwegian Food Safety Authority (NFSA)
needs updated knowledge to

- **provide advice to consumers**
- **identify knowledge gaps**

Terms of Reference

**Select relevant
plant-based og
gluten-free
products**

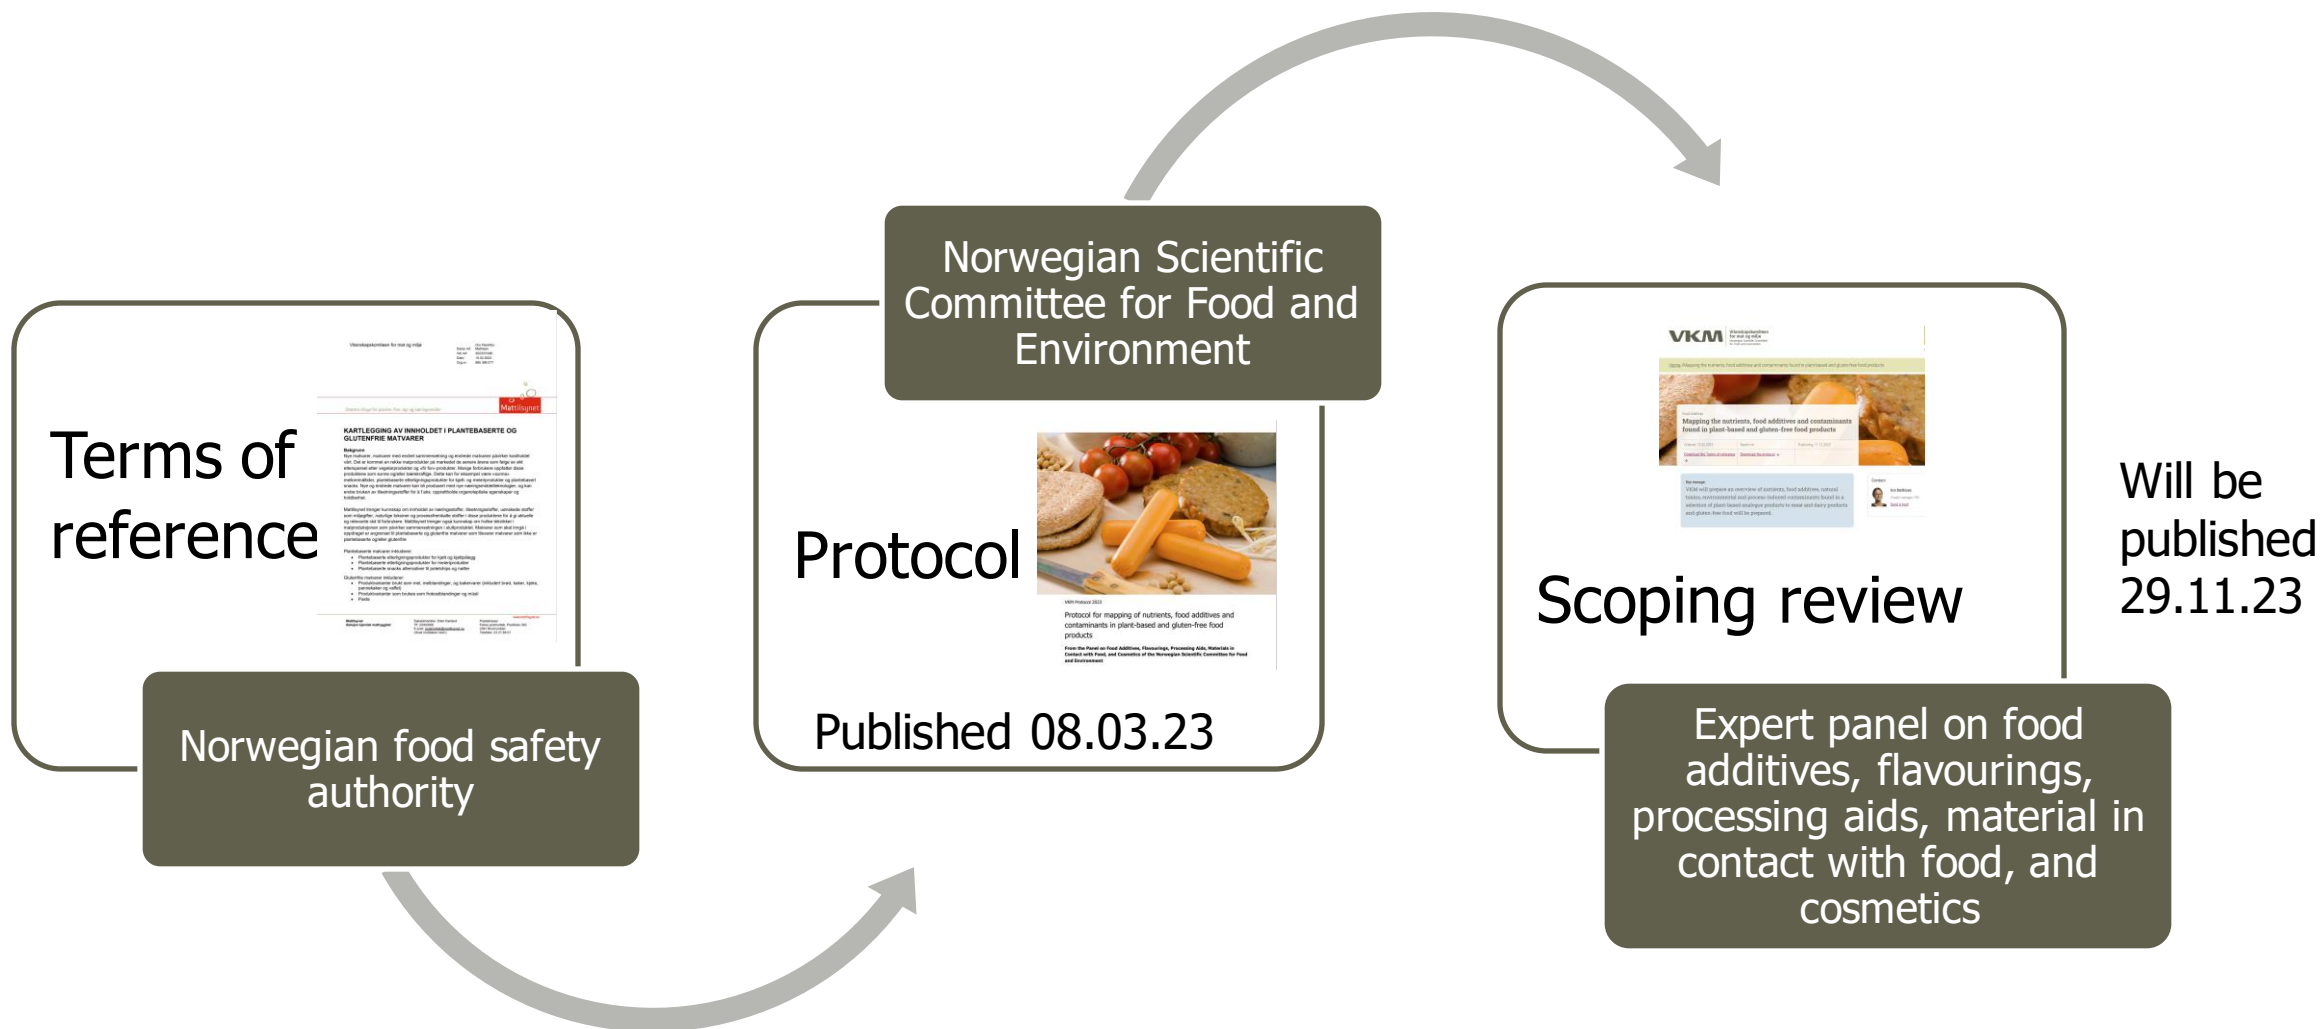

**Select relevant
nutrients, additives,
environmental toxins,
natural toxins, and
process-induced
substances**

**Map and compare
content of food products
and substances with
corresponding meat-
and dairy products, and
products with gluten**

Process

Gro H. Mathisen
