- **Statistical Significance** – A discussion took place about the use and misuse of « statistical significance », the related discussion in the statistician community and the broader scientific community, and its impact on the risk assessment process. A presentation was given by Laura Ciccolallo (biostatistician, EFSA MESE Unit) which addressed the Scientific Committee guidance on statistical significance and biological relevance from 2011⁴, the discussion fostered by the American Statistical Association through its statement on statistical significance and p-values published in 2016⁵, and subsequent developments. A discussion followed which addressed issues related to misconceptions around p-values, especially when they are dichotomised and decontextualised; the use of "statistical significance" in reporting of scientific studies
