

SCIENTIFIC PANEL ON Genetically Modified Organisms (GMO)

6th working group meeting on new biotechnology applied to
animals (GMA-NGT WG)

18-19 March 2024

14:00-18:00 (day 1) / 09:00-17:00 (day 2)

MINUTES - Agreed on 22 March 2024

Location: Web conference

Attendees:

- **Working Group Members:**
Leslie Firbank, Thomas Frenzel, Debora Glandorf, Mette S. Herskin, Simon Lillico, Javier Moreno, Fabien Nogué, Robin Ornsrud, Anna Troedsson-Wargelius, Giovanni Savoini (chair).
- **Hearing Experts¹:**
Mike McGrew.
- **European Commission and/or Member States representatives:**
Frank Swartenbroux, DG Sante E.3 (Biotechnology).
- **EFSA:**
Nutrition and Food Innovation (NIF) Unit: Michele Ardizzone, Paschalina Grammatikou, Paolo Lenzi, Ana Martin Camargo.
Biological Hazards & Animal Health and Welfare (BIOHAW) Unit: Marika Vitali.
- **Others**
None

I. Welcome and apologies for absence

The Chair welcomed the participants.

II. Adoption of agenda

The agenda was adopted without changes.

III. Declarations of Interest of Working Groups members

In accordance with EFSA's Policy on Independence² and the Decision of the Executive Director on Competing Interest Management³, EFSA screened the Annual Declarations of Interest filled out by the Working Group members invited to the present meeting. No Conflicts of Interest related to the issues discussed in this meeting have been identified during the screening process, and no interests were declared orally by the members at the beginning of this meeting.

IV. Agreement of the minutes of the 5th Working Group meeting held on 29-30 January 2024, via web

The minutes of the 5th Working Group meeting were agreed on 30 January 2024⁴

¹ As defined in Article 17 of the Decision of the Executive Director concerning the selection of members of the Scientific Committee, the Scientific Panels, and the selection of external experts to assist EFSA with its scientific work: <http://www.efsa.europa.eu/en/keydocs/docs/expertselection.pdf>

V. Scientific and administrative topic(s) for discussion

a. Mandate M-2018-0205 with EFSA-Q-2023-00050⁵

The working group continued the work carried out in previous meetings, with particular reference to: interpretation of the ToR, new developments in biotechnology applied to animals, definitions applicable to the scope of the mandate, translatability of concepts familiar in crops to NGT animals, identification of new hazards and potential risks and the animal welfare in NGT animals compared to EGT and conventional breeding. Furthermore, according to the terms of reference of the mandate, the working group discussed the applicability of the Guidance on the ERA of GM animals (EFSA, 2013) for NGT-animals. Criteria for the selection of case studies were agreed, such as the methodology to apply for their use in the frame of the scientific opinion. Further discussion is needed in future meetings.

VI. Any Other Business

Not Applicable

VII. Preparatory meetings

Since the 5th WG meeting, the following preparatory meetings chaired by EFSA staff also were held:

- **Preparatory meeting on environmental risk assessment**

Date: 23/02/2024

Working Group Members: Leslie Firbank, Deborah Glandorf and Anna Troedsson-Wargelius

Hearing expert: None

EFSA:

- Nutrition and Food Innovation Unit: Ana Martin Camargo, Michele Ardizzone

Topic for discussion: Applicability of the Guidance on the ERA of GM animals (EFSA, 2013) for NGT-animals

AOB: None

VIII. Next meeting

The next meeting will be held on 15th and 16th April 2024, via web-conference.

IV. Agreement of the minutes of the 4th Working Group meeting held on 11-12 December 2023, via web

The minutes of the 4th Working Group meeting were agreed by written procedure on 17 December 2023⁴

V. Scientific and administrative topic(s) for discussion

a. Mandate M-2018-0205 with EFSA-Q-2023-00050⁵

The working group discussed several topics related to new biotechnologies, including NGT and SynBio, applicable to farmed animals and aquaculture, refining the work carried out in previous meetings, as regards: the comprehensive definition of NGTs applicable to the scope of the mandate; identification of process and product-related novel hazards; the criteria applicable to the selection of appropriate comparator(s) for NGT animals; the translatability of concepts familiar in crops and plants for NGT animals; and the criteria for the selection of case studies. Furthermore, according to the Terms of Reference of the mandate, the working group continued the assessment of the adequacy of the EFSA guidances covering all aspects of molecular characterisation, food feed safety & welfare, and environmental impact of genetically modified animals, for the risk assessment of animals produced by new biotechnologies for agri-food and feed purposes. Further discussion is needed in future meetings.

Annex

Interests and actions resulting from the Oral Declaration of Interest done at the beginning of the meeting

With regard to this meeting, Dr. Debora Glandorf declared the following interest: "Working Group Microbiële Gewasbeschermingsmiddelen", which provides input to the Dutch Ministry of Agriculture regarding scientific aspects of the new data requirements for microbial protection products. The role of Debora Glandorf in this Working group consists of providing input on the methodology and data requirements for the environmental risk assessment of GMOs, such as the use of problem formulation approach in the environmental risk assessment. In accordance with EFSA's Policy on Independence and the Decision of the Executive Director on Competing Interest Management and taking into account the specific matters discussed at the meeting in question, the interest above was not deemed to represent a Conflict of Interest for the Expert concerned.

The minutes of the 2nd Working Group meeting were agreed by written procedure on 27 September 2023⁴

V. Scientific and administrative topic(s) for discussion

a. Mandate M-2018-0205 with EFSA-Q-2023-00050⁵

The working group discussed several topics related to new biotechnologies, including NGT and SynBio, applicable to farmed animals and aquaculture, including: a comprehensive definition of NGTs applicable to the scope of the mandate; the different methods available for producing NGT animals; the criteria applicable to the selection of appropriate comparator(s) for NGT animals; the translatability of concepts familiar in crops and plants, also for NGT animals; the methodologies used in EFSA for the animal welfare risk assessment; the potential role of NGT insects for agri-food-feed purposes. Furthermore, the working group discussed also possible interpretation of the ToRs of the mandate and the proposal for an informative webinar to present the project to stakeholders. Finally, the structure of the scientific opinion was presented. Further discussions are needed in future meetings.

V. Scientific and administrative topic(s) for discussion

a. Mandate M-2018-0205 with EFSA-Q-2023-00050⁵

The working group discussed the potential risks related to new genomic techniques (NGTs) applied to farmed animals and aquaculture, and the possible approach to adequately address the EC mandate. The criteria necessary for an effective selection of potential case studies were assessed, as well as the need for further clarification on the terms of reference. Finally, the results of the gathering report of knowledge on NGTs applied to farmed animals and aquaculture or their agri/food/feed products, and a global overview of regulatory policies for animal biotechnology were presented. Tasks were distributed to all members of the Working Group. Further discussions are needed in future meetings.

V. Scientific and administrative topic(s) for discussion

a. WG composition and set-up and Tour the Table

The Chair of the meeting invited all participants to present themselves focusing on the relevance of their expertise to the scope of the GMA-NGT mandate.

b. Administrative information

Information relevant to the activities of the experts was provided regarding administrative aspects, use of the Teams channel platform used for sharing documents and on the role and duties of the expert.

c. EC Mandate on new developments in biotechnology applied to animals for agri-food uses.

The content of the EC mandate received by DG SANTE was presented. The discussion focused on the scope, background, Terms of Reference and deadlines.

d. Knowledge gathering on known cases of animals (and their food and feed products) obtained by new developments in biotechnology.

An update of the activities related to the knowledge gathering on known cases of animals (and their food and feed products) obtained by new developments in biotechnology was presented.

e. EFSA guidance for the risk assessment of GM animals: EFSA GMO & AHAW Panels 2012⁴ and EFSA GMO Panel 2013⁵

The principles underlying the risk assessment of GM animals, as outlined in EFSA GMO & AHAW Panels 2012 and in EFSA GMO Panel 2013 were presented, highlighting the main concepts covering comparative assessment, molecular characterisation, food and feed safety, animal welfare, and environmental impact.

f. Approach to deal with the task of the mandate

In order to set up the discussion foreseen in subsequent meetings on the preferred approach to tackle the mandate, some examples of approaches used in the context of other mandates with a similar scope were presented (e.g. EFSA GMO Panel 2020⁶; EFSA GMO Panel 2021⁷; VKM report on genome editing 2021⁸).

g. Dates for the next GMA-NGT WG meetings

Dates were agreed for the next four GMA-NGT WG meetings.
