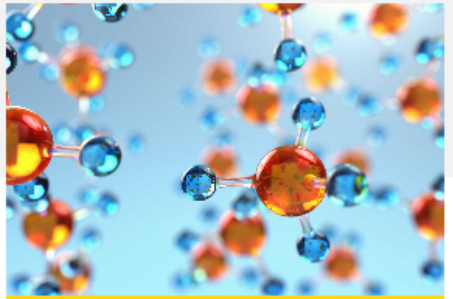
# IUCLID for Applicants

One day  Beginner



Resume

### Course details

The course covers key steps in dossier preparation and submission:

- Introduction to ECHA cloud services and IUCLID desktop/server
- IUCLID governance and release schedule
- ECHA accounts and Legal entities
- IUCLID dossiers basic concepts: PPP working contexts and dossier preparation, microorganisms and Table of Contents, datasets, IUCLID documents, making a request for confidentiality and instructions for uploading attachments
- Validation of a dossier and actions in case of unresolved rules Report generator, overview of available reports
- Transparency regulation publication requirement
- Create and export dossier – light dossier export explained
- Submission portal

This is a self-paced online course that includes video tutorials and official guidelines.

### Target audience

This course is suitable for applicants and consultants who are preparing regulatory dossiers in IUCLID format for submission to regulatory authorities in Europe. The focus is on Pesticides dossier but much of the content would be relevant in other sections.

### Learning objectives

On successful completion of this course you will be able to:

- Select the correct tools for preparing an IUCLID dossier
- Prepare a dossier for submission to regulatory authorities in Europe
- Use the tools available in IUCLID to check, compare, summarise, filter for dissemination and submit

### Offered by

EFSA is an agency of the European Union set up in 2002 to serve as an impartial source of scientific advice to risk managers and to communicate on risks associated with the food chain.

## Checking the completeness of a dossier

Before submitting a dossier, it is important to run validation assistant to check the dossier is technically complete. The rules applied included in the Dossier Header, make sure this is completed correctly. It is important to resolve all validation assistant warnings, thi the evaluator. If you cannot resolve all the warnings re-run the validation assistant, download the excel file and include in this file th warning and provide this directly to the evaluator. Note missing studies for a specific data requirement/endpoint should be justified relevant endpoint study record.

If the report shows a business rule failure (anything starting with BR, e.g. BR_PPP_033) this will prevent the applicant from succes report shows a validation warning (anything starting with QLT, e.g. QLT_PPP_001) the applicant will be able to submit the dossier b admissibility check.

Information on the applicable validation rules is available here.

Watch the video on validation assistant:

Question 1

Partially correct

Mark 3.33 out of 10.00

Flag question

Edit question

Check the crosswalk files and select the correct section number from the data requirement:

For the active substance dataset "Common name proposed or ISO-accepted and synonyms" is in section 1.1 ✔ , "Metabolism, distribution and expression of residues - poultry" is in section 15.10 ✖ and "Fish full life cycle test" is in section 8.1.1.1 ✖ .

2.1.1 1.4

6.1 6.2.1

7.5 8.2.2.1

Your answer is partially correct.

You have correctly selected 1.
