

## Cooperations

(These 3 also feature in part, in the last follow-up list)

Database(s) of evaluated substances (IAS and NIAS)

OSOA. Pillar D Info systems

Basic design we have. Sustainability (future-proof funding)

Natural materials, substances from natural sources (biobased),  
biodegradables, + paper & board? + cork?

Screening methods and MS identification tools

## Rubber/Elastomers

Vulcanisation at high temp = crosslinking .... + NIAS too?

Screening methods and MS identification tools
