

EFSA procurement:

WHY, WHAT, HOW

EFSA buys services and supplies through public procurement in line with EU legislation and the basic principles of transparency, equal treatment and non-discrimination, widest competition, proportionality and sound financial management.

When tendering for EFSA procurement procedures, tenderers may bid alone as a single entity or in a joint offer with partners. All tenderers must have access to the EU market to be eligible for the award of EFSA contracts. Tenderers may also rely on the use of subcontractors in their offer. Subcontractors may be established in countries which do not have access to the EU market, unless specified differently in the individual call for tenders.

HOW ARE PROCUREMENT CONTRACTS AWARDED?

WHO OWNS CONTRACT DELIVERABLES?

EFSA

EFSA owns contract deliverables with exception of those subject to pre-existing intellectual property rights. EFSA can make use of the contract deliverables which it owns, without consulting the contractor.

CONTRACTOR

Owner only of parts of deliverables subject to pre-existing intellectual property rights. If the contractor wants to make use of or publish contract deliverables owned by EFSA, they must request permission from EFSA in advance.
