-

Career:

1) Medical Doctor in 1990, University Professor in 1998, Chair of the Medical Board of Lille University Hospital from October 2011 to October 2013.

2) Director General for Health (DGS) at Ministry of Health from October 2013 to January 2018:

Management of exceptional health situations:

- Epidemics of emerging infectious diseases (Chikungunya and Ebola haemorrhagic fever in 2014; Zika in 2016, etc.);
- Seasonal events (flu during the winters of 2014-2015 and 2016-2017, heatwaves each year, etc.);
- Massive terrorist attacks with an influx of victims (7 January 2015 at Charlie Hebdo, 13 November 2015 in the Ile-de-France region, 14 July 2016 in Nice);
- Hurricanes Irma and Maria over the northern Caribbean islands (ten days in October 2017).

Public health actions:

- Preparation and monitoring of the Chlordecone 3 Plan (2014-2020);
- Preparation and monitoring of the public health plans and programmes for "Environmental Health" (PNSE 3 2015-2019) and "Occupational Health" (PST 3 2016-2020);
- Establishment of the French public health agency (ANSP – Santé publique France; Health Act of January 2016);
- Tobacco control and plain packaging (WHO award 2016; Health Act of January 2016);
- Preparation for real-life testing (November 2016) and launch (October 2017) of the "Nutri-Score" front-of-pack nutrition labelling system;
- Preparation for extending mandatory vaccination for newborns and infants (January 2018).

Supervision of health agencies, particularly the French Agency for Food, Environmental and Occupational Health & Safety (ANSES), and assistance with various developments:

- Management of the toxicovigilance scheme in poison control and monitoring centres (CAP-TV s);
- Strengthening of the laboratories' missions regarding health surveillance (Act on the future of agriculture, 2014), and epidemiological surveillance platforms for plant and animal health;
- Implementation of the phytopharmacovigilance scheme (2015);
- Issuing of authorisations and permits for plant protection products and fertilisers (2015), and then biocidal products;
- Management of declarations relating to the composition of tobacco and vaping products (Health Act of January 2016);
- Vector control (2018).

France's Representative on the World Health Organization (WHO) Executive Board (May 2015 to January 2018), and Vice-Chair then Chair of the Standing Committee of the Regional Committee (SCRC) and of the WHO Regional Committee for Europe (September 2015 to September 2017); contribution to the work of WHO Geneva and WHO Europe in support of the "One Health" strategy for organising health systems; "Sherpa" to the Presidency of the French Republic in support of the UN High-Level Commission on Health Employment and Economic Growth (United Nations General Assembly, September 2016, New York).

3) January 2018, Senior Counsellor at the French Supreme Audit Court (Sixth Chamber: social security, health, medical-social sector).

4) During the COVID crisis, seconded by the French Audit Court to Martin Hirsch, Director General of the Paris Public Hospital System (AP-HP), from 18 March to 10 April 2020.

Secondment extended from 10 April to 2 June 2020, as scientific adviser to Jean Castex, interministerial delegate in charge of coordinating the national lockdown easing strategy.

5) 1 July 2020, full-time secondment to the Ministry of Higher Education, Research and Innovation, in order to set up the WHO Academy in Lyon, a project supported by President Emmanuel Macron and the WHO Director-General, Dr Tedros.

6) Chair of the ANSES Board of Administrators from September 2020 to October 2022. Monitoring the Agency's budget and finances; facilitating dialogue to ensure that all stakeholders' concerns are taken into account; ensuring compliance with a strengthened ethical framework to guarantee the transparency and independence of expert appraisals.

7) Director General of the Hauts-de-France Regional Health Agency (ARS – Agence régionale de santé) from October 2020 to November 2022. Regional implementation of policies on air and water quality, establishment of health values for chemical products and alternatives to pesticides, antimicrobial resistance, animal welfare, nutrition, physical risks, occupational health, etc.

8) Appointment as Director General of ANSES on 15 November 2022.
