

**FEEDBACK FROM MEMBER STATES  
IUCLID PSN MEETING  
29 FEBRUARY 2024**

# FEEDBACK FROM DK

- During assessment of studies in IUCLID, it is sometimes discovered, that files with info that should have been included in the dossier are missing. This can be input or output files from modelling (e.g. QSAR). It would be beneficial, if applicants made sure that all data referred to in studies are available, before the dossier is submitted. Provision of such data by the applicant before submission of dossier, would increase our efficiency.
- In IUCLID, it is difficult to **find the reports that are based on a letter of access**. Please consider how that process could be eased.
