# MS access to EFSA hearing documents

**32nd PESTICIDE STEERING NETWORK (PSN) meeting  
29-30 October 2024**

**Alf Aagaard**

## Access to commenting of EFSA hearing documents – problems with restrictions.

- Commenting of DAR/RAR etc have earlier been accessible to all member in MS.
- Now, the link to hearing documents and commenting in the notification mail can only be accessed by the few members in each MS who gets the notification.
- EFSA don't want to expand the number of MS member, who are notified.
- Work around: All MS experts without link, can access the public hearing version, where no confidential data are presented (i.e. this may be a problem if access to confidential data is needed).
- Can confidential data somehow be retrieved from DMS?
- What to do?
