

SCIENTIFIC PANEL ON FOOD ENZYMES (FEZ)  
4<sup>th</sup> FEZ Panel meeting

19-21 November 2024  
14:00-18:00 / 09:00 -17:00/ 09:00-13:00  
AGENDA

**Location:** Parma

**Chair:** Holger Zorn

**Day 1 – 19 November**

| Time  | No. | Item                                                                                                                                                                            | Presenter/comments      |
|-------|-----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
| 14:00 | 1   | <b>Welcome and Apologies for absence</b>                                                                                                                                        | Chair                   |
|       | 2   | <b>Adoption of the agenda</b>                                                                                                                                                   | Chair                   |
|       | 3   | <b>Declarations of interest</b>                                                                                                                                                 | Chair                   |
|       | 4   | <b>Agreement of the minutes of the 3<sup>rd</sup> Panel plenary meeting held on 15-17 October 2024</b>                                                                          | Chair                   |
|       | 5   | <b>Report on written procedure</b>                                                                                                                                              | Not applicable          |
|       | 6   | <b>Scientific outputs submitted for discussion/adoption</b>                                                                                                                     |                         |
|       | 6.1 | <b>Follow-up opinion linked to EFSA-Q-2021-00298 - Glucose oxidase from a genetically modified <i>Trichoderma reesei</i> strain AR-352</b><br><a href="#">EFSA-Q-2024-00167</a> | For adoption/discussion |
|       | 6.2 | <b>Endo-1,4-beta-xylanase from a genetically modified <i>Bacillus subtilis</i> strain AR-153</b><br><a href="#">EFSA-Q-2023-00307</a>                                           | For adoption/discussion |
|       | 6.3 | <b>Fructanase from a genetically modified <i>Trichoderma reesei</i> strain AR-577</b><br><a href="#">EFSA-Q-2023-00423</a>                                                      | For adoption/discussion |
| 18:00 |     | <i>End of the 1<sup>st</sup> day</i>                                                                                                                                            |                         |

**Day 2 – 20 November**

| Time  | No. | Item                                                                                                                                                                                 | Presenter/comments      |
|-------|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
| 09:00 | 6   | <b>Scientific outputs submitted for discussion/adoption (continues)</b>                                                                                                              |                         |
|       | 6.4 | <b>Polygalacturonase (pectinase) and <math>\beta</math>-glucosidase from a non-genetically modified <i>Aspergillus tubigenis</i> strain ARO</b><br><a href="#">EFSA-Q-2023-00657</a> | For adoption/discussion |

- |     |                                                                                                                                                                        |                         |
|-----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
| 6.5 | <b>Xylanase from a genetically modified <i>Bacillus subtilis</i> strain LMG S-24584</b><br><a href="#">EFSA-Q-2023-00878</a>                                           | For adoption/discussion |
| 6.6 | <b>Xylanase from the non-genetically modified <i>Trichoderma citrinoviride</i> strain HBI-TX01</b><br><a href="#">EFSA-Q-2022-00869</a>                                | For adoption/discussion |
| 6.7 | <b><math>\beta</math>-Fructofuranosidase from the non-genetically modified <i>Saccharomyces cerevisiae</i> strain CNCM I-3399</b><br><a href="#">EFSA-Q-2022-00627</a> | For adoption/discussion |
| 6.8 | <b><math>\alpha</math>-L-Arabinofuranosidase from <i>A. niger</i> (ARF)</b><br><a href="#">EFSA-Q-2014-00671</a>                                                       | For adoption/discussion |
| 6.9 | <b>Acylglycerol lipase from a genetically modified strain of <i>Penicillium camemberti</i> strain AE-LGS</b><br><a href="#">EFSA-Q-2015-00757</a>                      | For adoption/discussion |

17:00 End of day 2

### Day 3 – 21 November

| Time  | No.  | Item                                                                                                                                                                             | Presenter/comments      |
|-------|------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
| 09:00 | 6    | <b>Scientific outputs submitted for discussion/adoption (continues)</b>                                                                                                          |                         |
|       | 6.10 | <b>Alpha-amylase from a non-genetically modified <i>Aspergillus oryzae</i> strain FUA</b><br><a href="#">EFSA-Q-2023-00360</a>                                                   | For adoption/discussion |
|       | 6.11 | <b>Pectinase produced by <i>Aspergillus niger</i> CCTCC 2023236</b><br><a href="#">EFSA-Q-2023-00227</a>                                                                         | For adoption/discussion |
|       | 6.12 | <b>Fructosyltransferase from a genetically modified <i>Yarrowia lipolytica</i></b><br><a href="#">EFSA-Q-2024-00010</a>                                                          | For adoption/discussion |
|       | 6.13 | <b>Prolyl oligopeptidase from a genetically modified <i>Trichoderma reesei</i> strain DP-Nyq99</b><br><a href="#">EFSA-Q-2023-00906</a>                                          | For adoption/discussion |
|       | 6.14 | <b>Endo-1,4-beta-xylanase from a genetically modified <i>Bacillus subtilis</i> strain DP-Ezd119</b><br><a href="#">EFSA-Q-2024-00079</a>                                         | For adoption/discussion |
|       | 6.15 | <b>Alpha-amylase from a genetically modified <i>Bacillus licheniformis</i> strain DP-Dzb105</b><br><a href="#">EFSA-Q-2024-00087</a>                                             | For adoption/discussion |
|       | 6.16 | <b>Follow-up opinion linked to EFSA-Q-2017-00546 - Maltogenic amylase from a genetically modified <i>Bacillus subtilis</i> strain BABSC</b><br><a href="#">EFSA-Q-2024-00448</a> | For adoption/discussion |

- |      |                                                                                                                                            |                         |
|------|--------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
| 6.17 | <b>Triacylglycerol lipase from a genetically modified <i>Komagataella phaffii</i> strain LALL-LI2</b><br><a href="#">EFSA-Q-2024-00201</a> | For adoption/discussion |
| 6.18 | <b>Bacillolysin from a genetically modified <i>Bacillus amyloliquefaciens</i> strain NPR</b><br><a href="#">EFSA-Q-2023-00905</a>          | For adoption/discussion |
| 6.19 | <b>Glucoamylase from <i>Aspergillus niger</i> strain GAS</b><br><a href="#">EFSA-Q-2023-00239</a>                                          | For adoption/discussion |
| 7    | <b>Feedback from the Scientific Committee/ Scientific Panels/Working Groups/EFSA/ European Commission</b>                                  |                         |
| 7.1  | <b>Scientific Committee</b>                                                                                                                | Panel Coordinator       |
| 7.2  | <b>European Commission</b>                                                                                                                 | EC Representatives      |
| 7.3  | <b>Updates from EFSA</b>                                                                                                                   | Panel Coordinator       |
| 8    | <b>AoB</b>                                                                                                                                 |                         |

13:00 *End of the plenary*
