

# EFSA Stakeholder Forum

## Workshop 2

### Innovation in food risk assessment methodology

**Room:** Rome

**Chair:** Guilhem de Sèze, Head of EFSA ASSESS Department

**Stakeholder Co-chair:** Laurent Oger, Director General International Sweeteners Association

#### Theme:

This session will focus on EFSA's forward-looking processes in guidance development, aiming to gather concrete feedback to further enhance the user-friendliness and participatory nature of EFSA's methodological work. In this context, the EFSA guidance architecture project will be presented, providing a comprehensive overview of its objectives and current progress.

This will also be an opportunity to discuss strategies for optimizing stakeholder engagement, ensuring effective input and participation from all relevant parties. Additionally, how EFSA guidance documents are currently utilized by actors within the food safety ecosystem will be explored.
