First day

Last day

Thoughts and memories

- I feel lucky because:
 - I got the SNE contract in the first place
 - In EFSA I worked with very relevant topics in plant health
 - I could bring the experience gained in EFSA use it when I returned home.
- Wonderful experience gained, academic+ working and living abroad, meeting new friends and colleagues
- It was a sprint not a marathon.

Thank you for your attention!

Mart Kinkar
