

A communication toolkit for public consultations

Why a toolkit ?

This toolkit has been developed by EFSA to provide further information on EFSA public consultations and ensure that participation and staying informed is easy and clear.

What can I find in the toolkit?

The toolkit has been designed to answer frequently asked questions about EFSA public consultations, including how to participate in them and how the process works. **In the toolkit you will find information on:**

01 EFSA's work and how you can get involved

02 What are public consultations

Background information on public consultations

Step by step process of how public consultations work

How to participate in a public consultation and provide your input to inform EFSA's risk assessment

An overview of the different types of consultations

03 How the commenting process works

A visual overview of the commenting process

Information on where the consultation outcomes are published

04 Where to find further information and support on public consultations

An overview of information sources and what type of information can be found at each source

Guidance on using and navigating Open EFSA, Connect EFSA, the EFSA website and the EFSA Journal

Who is the toolkit for?

This toolkit can be used by anybody interested in contributing to EFSA's risk assessment by participating in public consultations.

Where can I find the toolkit?

You can access and download the toolkit following the link below.
