PERSONAL AND PROFESSIONAL SKILLS

ORGANISATIONAL SKILLS

The work carried out at the Cabinet Office of the Minister of Health not only enabled me to develop an understanding of the complex workings of government and the legislative process, but also provided insight into the intricate structure of the Ministry and its supporting bodies, as well as an overview of the numerous stakeholders in the sector.

Participation in international projects within the EU whilst heading Office 8 of the DGPROG enabled me to acquire skills in the planning and execution of complex activities involving multiple stakeholders and interests.

Leading the Task Force for the implementation of the PNRR measures facilitated the acquisition of skills relating to the coordination and management of monitoring, control and reporting activities.

COMMUNICATION AND INTERPERSONAL SKILLS

High level of competence in communication and interpersonal relations, with the skills and abilities required to interact with institutional and political bodies and to disseminate the results achieved.

My activities at the European Commission have enabled me to approach different communication models and to participate in international projects involving teamwork at both national and EU level.

PROFESSIONAL SKILLS

Good knowledge of the processes for the procurement of goods and services within public administrations (acting as the person responsible for the procedure in various public tenders).

Particular expertise acquired in the field of public sector accounting and financial statements within public

administrations.

Excellent knowledge of human resources management, from legal, financial and organisational perspectives.

Excellent knowledge of administrative procedures and litigation (responsible for various authorisation and licensing procedures).

Excellent knowledge of the functioning and structures of the European Union
