In close collaboration with national authorities and in open consultation with its stakeholders, EFSA provides independent scientific advice and clear communication on existing and emerging risks.

EFSA is an independent European agency funded by the EU budget that operates separately from the European Commission, European Parliament, and EU Member States.

It was set up in January 2002, following a series of food crises in the late 1990s, as an independent source of scientific advice and communication on risks associated with the food chain.

The European Food Safety Authority is located in Via Carlo Magno 1A, 43126, Parma, Italy.

EFSA currently employs around 550 staff members and works alongside over 1500 external experts.

The working and contractual conditions of EFSA staff are based on the SR and CEOS.

How can I apply for a position at EFSA?
