

3rd Call

Input data for the Exposure Assessment of Food Enzymes

Published: 01/02/2019

Deadline: 01/05/2019

Food processes

- Protein components in infant formulae and follow-on formulae

Instruction for completing the attached MS Excel ® file

Sheet 1 ("Legend") contains the terminology used in the workbook.

EFSA is seeking information on the presence of various protein components and the associated technical factors in infant formulae and follow-on formulae (Sheet 2 "Protein") and yields when processing such components (Sheet 4 "Average yield").

An example of how to populate Sheet 2 ("Protein") is given in Sheet 3 ("Protein example").

The FoodEx categories are available in Sheet 5 ("FoodEx").

Submission of data

Data should be submitted directly to EFSA using the dedicated e-mail address for this service: foodenzyme.datacall@efsa.europa.eu. This mailbox is also the contact point for any technical support/advice you need for the reporting of this data.
