Annex D – Funnel plots for the assessment of the publication bias
1. **WAZ comparing early introduction with later introduction of CFs**

   ![Weight-for-age z-score (WAZ)](image)

2. **Attained weight comparing early introduction with later introduction of CFs**

   ![Attained weight](image)
3. **L(H)AZ comparing early introduction with later introduction of CFs**

![Graph showing funnel plots for L(H)AZ](image)

4. **BMI z-score comparing early introduction with later introduction of CFs**

![Graph showing funnel plots for BMI z-score](image)
Annex D - Appropriate age of introduction of complementary feeding - funnel plots

5. Chance of being obese comparing early introduction with later introduction of CFs

![Funnel plot for chance of being obese](image)

6. Chance of being at least overweight comparing early introduction with later introduction of CFs

![Funnel plot for chance of being at least overweight](image)
7. **Eczema and CFs – general population – comparing early introduction with later introduction**

![Funnel plot for general population](image)

8. **Eczema and CFs – at risk group – comparing early introduction with later introduction**

![Funnel plot for at risk group](image)
**Abbreviations**

- BMI: body mass index
- CF: complementary food
- L(H)AZ: length (height)-for-age z-score
- WAZ: weight-for-age z-score
