Call title: Establishing capacities for active surveillance of highly pathogenic avian influenza in wild birds in Europe.

Modification of Point 1.3:

Point 1.3 is complemented as follows:

Subcontracting is allowed for non-core tasks only, which are those falling under WP5 and WP7. Activities falling under WP 6 can exceptionally be subcontracted to Member States (MS)' national/federal reference laboratories for Avian Influenza even if not registered as Art 36 organisations, and to the national/federal reference laboratories for Avian Influenza of the non EU-MS country where the sampling is carried out.

Please also refer to section 1.7 'Possibility of implementing contracts and subcontracting'.

The following Call for proposals document has been updated in track changes and published in the EFSA website in order to illustrate the changes described above:
