**Call title:** Establishing capacities for active surveillance of highly pathogenic avian influenza in wild birds in Europe.

### Question 1:

I could not identify a specific section within the provided template where I could articulate the project as a whole. I am reaching out to inquire whether there is a designated template or a specific section where I should provide the detailed project proposal.

If there is a separate document or template for the project description, could you please guide me on where to find it or provide the necessary document for completion?

### Answer:

Please note what is mentioned in the call for proposals about the template to be used by applicants to submit an application under section “Criterion No. 2.5”

“For the award criteria, a template (Annex 6) is available to download in the Funding and Tenders Portal. The applicant must upload the completed template (a single PDF document of all criteria) in the relevant field under Part B and Annexes of the Funding and Tenders Portal.”
