

Declaration of interests

(Please note that high quality of scientific expertise is by nature based on prior experience and that therefore having an interest does not necessarily mean having a conflict of interest)

Name : **José Barat**

Title: **MR.**

Profession : **Professor at Food Technology Department**

Current EFSA Involvements

- Member - CEP Panel Experts (2018-2024)
- Member - WG/P/CEP/2018/05 - WG Enzymes
- Member - WG/P/FAF/2018/07 - WG Food Additives Applications
- Member - NT/U/SCER/2012/02 - EFSA Nanotechnology Network

Interests

I. Financial investments

No interests

II. Managerial role

No interests

III. Member of a scientific advisory entity

No interests

IV. Employment

Period: **01/03/1996 - now**

Organisation: **Universitat Politècnica de València**

Impact on annual earnings: **>25%**

Subject matter: UNIVERSITY - Research and Education Currently, I'm full professor of Food Science and Technology. I have responsibilities in research (I'm group leader of a research group). I teach food technology, engineering and innovation subjects in Food Technology Degree and Masters in Food Engineering and Food Safety and Management. I'm Academic Director of Food Technology degree. I'm former head of the Food Technology Department and Vice-Rector for academic planning and faculty. Near to 100% of my annual earnings are paid by the University.

V. Occasional consultancy

No interests

VI. Research funding

Period: **01/01/2021 - 31/12/2021**

Organisation: **New Food Development s.l.**

Subject matter: Formulation of water with added electrolytes. 100% private funding. Not exceeding 25% of the research budget of the group

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/01/2021 - 31/12/2024**

Organisation: **Conselleria de Agricultura de la Generalitat Valenciana (Valencian Regional Government)**

Subject matter: The objective of the project is the development of enzymatic and antimicrobial strategies for reduction of biogenic amines in foodstuff.

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/01/2021 - 01/12/2021**

Organisation: **Universidad Politecnica de Valencia**

Subject matter: The objective of the project is the immobilization of natural antimicrobials to be used in the treatment of air and water to eliminate Legionella pneumophila

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/07/2020 - 01/07/2023**

Organisation: **Agencia Estatal de Investigación**

Subject matter: BIOZOOSTAIN is a research project funded by the ERA-NET BlueBio Cofund (<https://bluebioeconomy.eu/>) aiming at sustainable utilization of the zooplankton species *Calanus finmarchicus* as obtained as a side-catch during pelagic fishing in the north Atlantic

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/09/2019 - 01/09/2021**

Organisation: **Conselleria de Agricultura de la Generalitat Valenciana**

Subject matter: Grant for funding a post-doc researcher. 100% public funding. The topic of the research for the post-doc is within a research line related with the development of novel antimicrobials.

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/06/2019 - 01/01/2020**

Organisation: **Conselleria de Agricultura de la Generalitat Valenciana**

Subject matter: Co-funding of a research contract for a technician involved in a research project. 100% of the money comes from public funding, and the main contract of the researcher is done in a project funded by Candido Miró S.A., related with the "Improvement of nutritional profile of table olives through addition of pro and prebiotics."

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/11/2018 - 01/11/2021**

Organisation: **Agencia Estatal de Investigación**

Subject matter: Research activity dealing with the use of immobilized antimicrobials to reduce microbial load of water. 100% public funding.

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/09/2018 - 01/01/2020**

Organisation: **Cándido Miró S.A., Spain, Alcoy**

Subject matter: Improvement of nutritional profile of table olives through addition of pro and prebiotics. 100% private funding. Not exceeding 25% of the research budget of the group

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/07/2018 - 01/10/2018**

Organisation: **Embutidos Martínez S.A., Spain, Cheste**

Subject matter: Proposal of new formulations to improve nutritional facts of processed meats. Private funding. Not exceeding 25% of the group research budget

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/09/2017 - 01/09/2021**

Organisation: **Research Council of Norway, Norway**

Subject matter: Name of the project: : “Energy-efficient production of salt reduced cured meats - ExPress”. This is a collaboration project aiming to produce cured meats with a reduced salt content. Role: Analysis of samples and use of impedance spectroscopy for determination of salt content in meat products Deliverable: Study Report Private funding: 0%

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/07/2017 - 01/04/2018**

Organisation: **DULCESA S.A., Spain**

Subject matter: The objective is to collaborate with sensory analysis and self-life evaluation to the development of a novel puree The funding contribution is paid to the University and mostly used to cover the cost of the contract of a technician. The final deliverable of this project is a report. The research (co-

)funding I received from the private sector in the latest full budget year does not exceed 25% of the total annual research budget that is managed by me.

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/11/2016 - 01/10/2019**

Organisation: **Spanish Ministry of Economy and Competitivity, Spain**

Subject matter: Title: Study of relationship between processing variables and changes in the nutritional composition and functional profile of cocoa powder. Development of a predictive methodology applied to processing Role: scientific studied in the lab working with cocoa powder. Composition determination. Technological properties. Alkalinisation studies. Deliverable: Study report Private funding: 0%

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/01/2016 - 01/12/2018**

Organisation: **Spanish Ministry of Economy and Competitivity, Spain**

Subject matter: Title: Hybrid systems based on biocompatible supports for the development of antimicrobials from natural compounds and controlled release of food compounds Role: Scientific study doing functionalization of silica and cellulose supports, with molecular gates and natural antimicrobials. Study of the controlled release of nutritious compounds and antimicrobial activity of developed supports. Deliverable: Study Report Private funding: 0%

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

Period: **01/03/2015 - 01/04/2018**

Organisation: **Spanish Ministry of Economy and Competitivity, Spain**

Subject matter: Title: Development of healthier and convenient table olives. Biopreservation and reuse of by-products Role: Scientific study of behaviour of table olives during storage, development of new products without surrounding brine, study of by-products composition and reuse. Self-life studies Deliverable: Study Report Private funding: 0%

Does the funding received from the private sector during the two years preceding the submission of the ADol exceeds 25% of the total research budget that is managed by you for the area under concern: **No**

Additional Info:

VII. Intellectual property rights

No interests

VIII. Other memberships or affiliations

Period: **01/06/2010 - now**

Organisation: **Elsevier, Netherlands**

Impact on annual earnings: **0%**

Subject matter: Member of the editorial board of Journal of Food Engineering There is no funding for this membership

IX. Other relevant interest

No interests

Signature: SIGNED

Note regarding the processing of personal data

EFSA processes all Declarations of Interests (Dols) in accordance with Regulation (EU) 2018/1725. Dol processing is necessary in order to safeguard the independence of EFSA and enable the Authority to carry out its mission and comply with its obligations under Regulation (EC) No 178/2002.

The Executive Director of EFSA is the data controller with respect to the handling of Dols.

Concerned individuals have the right to access, rectify, erase and object to the processing of their ADol at any time. Nevertheless, for certain categories of individuals (e.g., experts), it may be a mandatory requirement to submit a Dol to EFSA so as to verify the absence of conflicts of interests and thus protect the independence of EFSA. Concerned individuals will be contacted if EFSA becomes aware of information that is not consistent with the declared interest such as on the occasion of compliance monitoring activities outlined in the relevant [Standard Operating Procedure](#).

Certain ADols shall be made publicly available in accordance with Article 38(1)(d) of Regulation (EC) No 178/2002. Furthermore, ADols may be transferred to bodies in charge of monitoring, auditing or inspection in conformity with EU Law.

The conservation period for ADols per category of data subjects is 10 years from the date of submission of the relevant ADol.

Concerned individuals may direct any queries regarding personal data processing by EFSA to the data protection officer DataProtectionOfficer@efsa.europa.eu. They are entitled to submit a complaint at any time to the European Data Protection Supervisor: <http://www.edps.europa.eu>

The legal basis for ADol processing is provided for in Articles 22, 37 and 38 of Regulation (EC) No 178/2002.
