<td>From 02/2015 to “now”</td>
<td>University of xxxx</td>
<td>The main field of activity of the University is Higher Education and Research. The university is controlled by public institutions and is mainly funded by public sources. I am assistant professor of toxicology and I am part of a research team of six. For what concerns my involvements at EFSA, there is some research done by PhD students on the distribution of rodenticide-resistance mutations in my country. As far as I am aware, the University of xxx has no contracts or other engagements with EFSA or with companies having submitted applications to EFSA. <strong>Impact on earnings &gt;25%</strong></td>

<td>From 01/2013 to “now”</td>
<td>Xxxx company</td>
<td>During my spouse’s previous employment at this company, he invented the following patent: production of X enzyme from Y and use in proteins for food industry. All rights have been transferred to the employer, and s/he does not have exploitation rights of the patent. This company is fully owned by the holding xxx, a multinational holding corporation producing and marketing various foodstuffs using ingredients and claims assessed by EFSA. <strong>Impact on spouse earnings from 0-5%</strong></td>

1. WHAT to clarify in your declared interests

Please also clarify if in the context of an *engagement with public institutions*

- you are currently performing a *risk management* overlapping with the mandate at stake

OR

- if you provide *consultancies to the private sector*, and if this is the case, the beneficiary(ies) of the advice
1. WHEN to insert a new interest or update a declared one

- Declare interests **as soon as they emerge**
- **Whenever you receive a request** from EFSA to submit or update a DoI
2. RESPONSIBILITIES

- the declaring subject (e.g. expert) is the sole responsible for veracity and completeness of the declaration

- EFSA assesses each interest in accordance with screening criteria available online
