

# EFSA Strategy 2020 AF meeting

Luxembourg, 8 – 9 December 2015

# INTRODUCTION

## Objectives of the meeting

- Inform you of the steps taken since the last AF meeting;
- Discuss the draft actions to implement the strategy and related expected outcomes – focus on SO3;
- Agree on the next steps

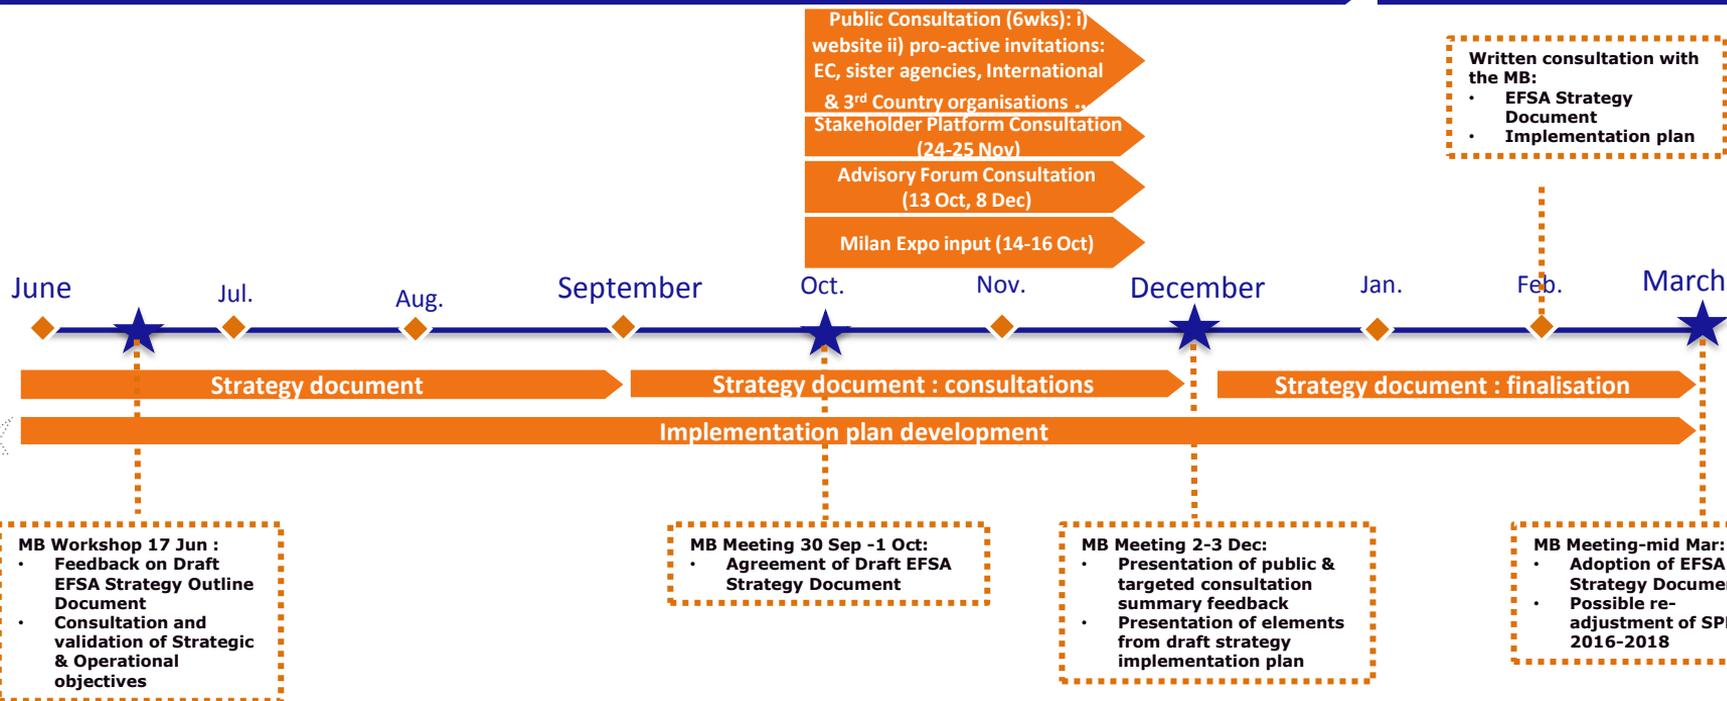

# TIMELINE

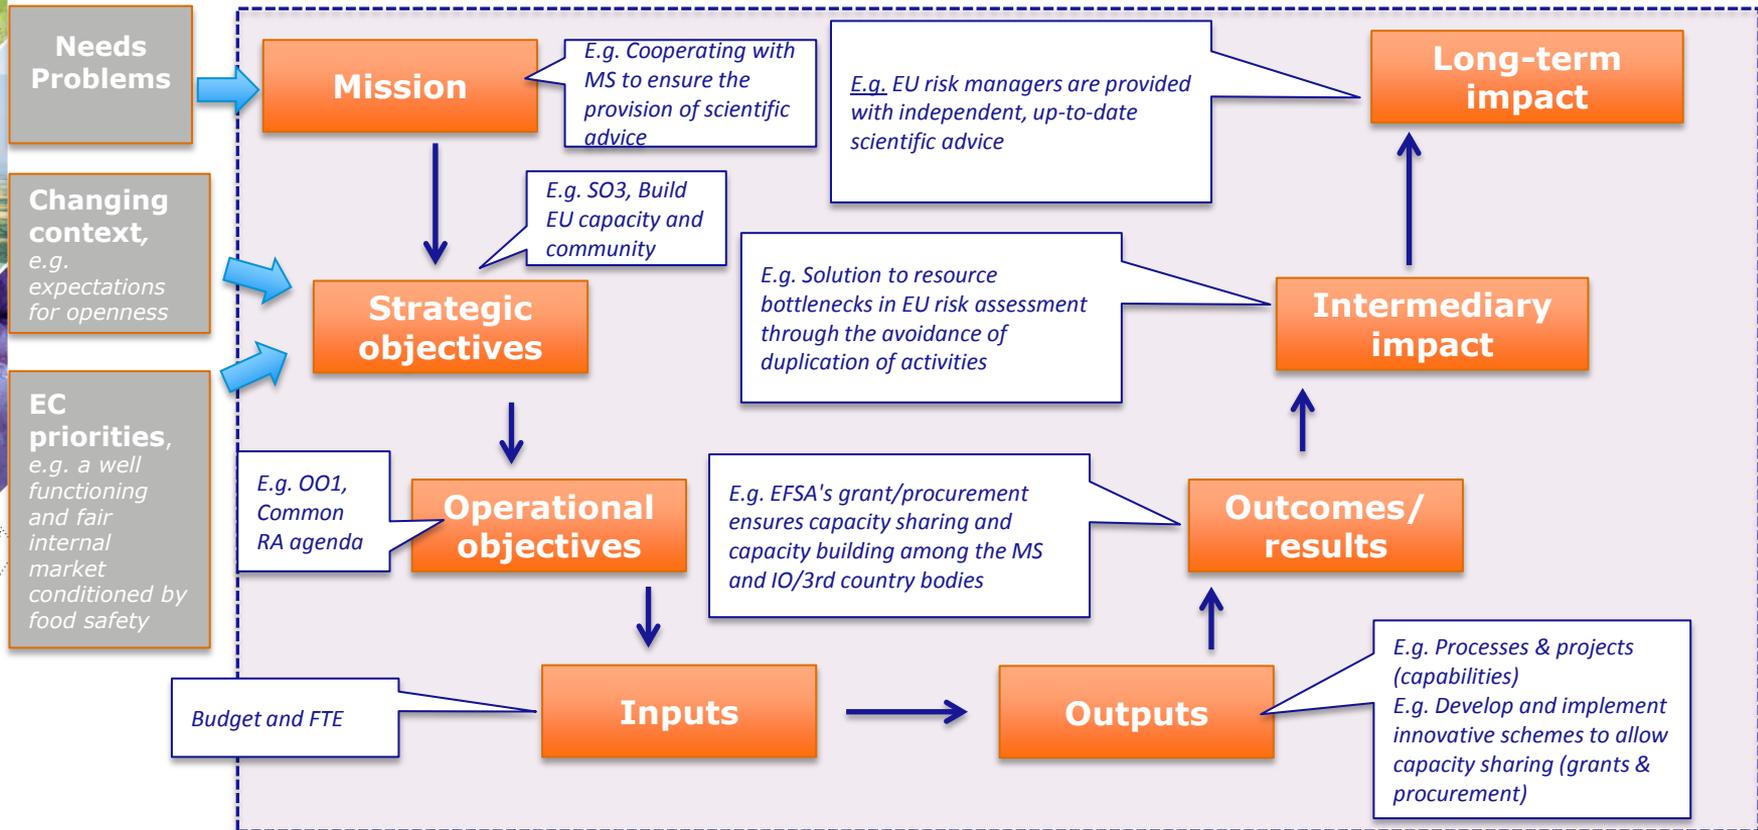

## EFSA Strategy Project

2015

2016

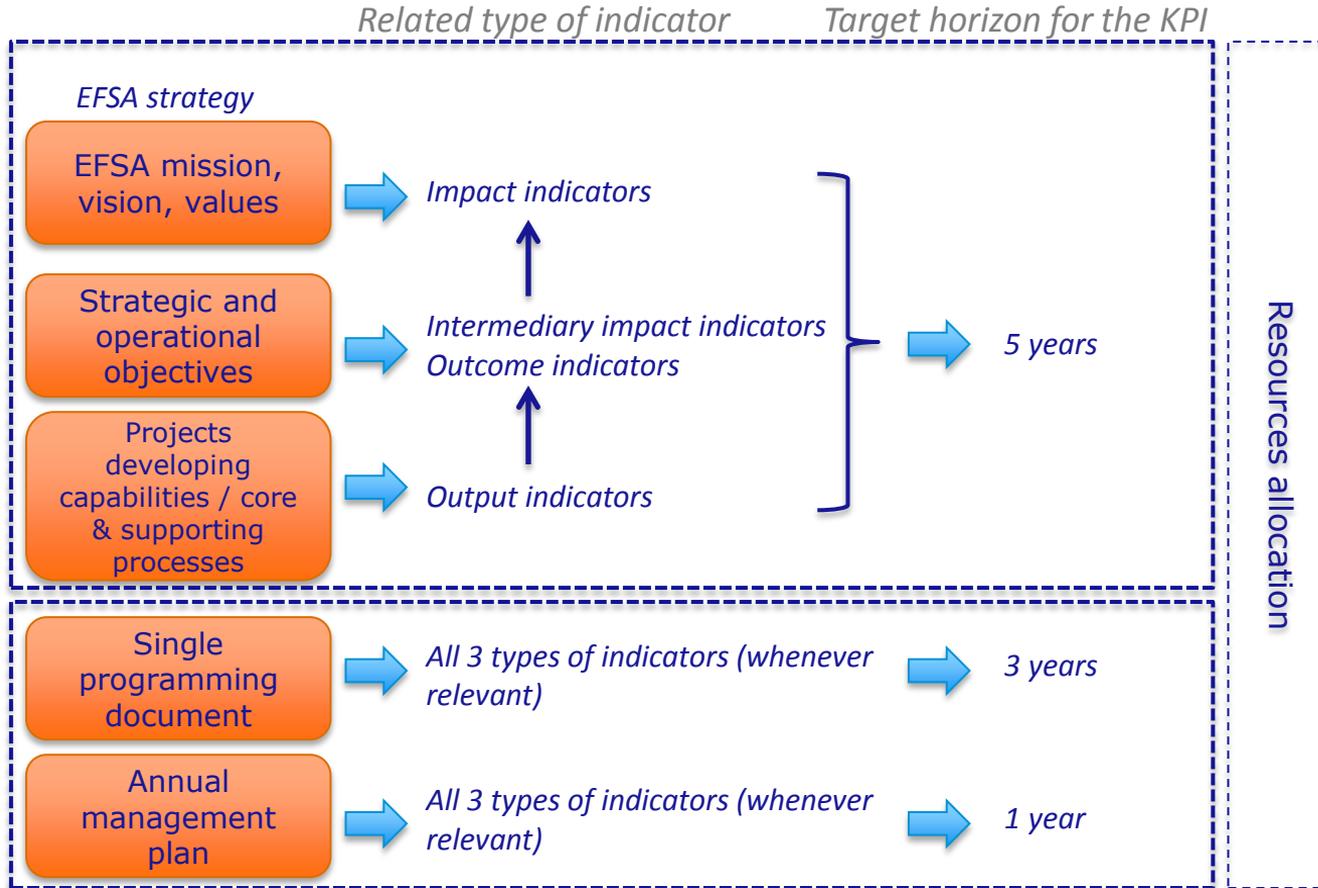

# STRATEGY IMPLEMENTATION PLAN: APPROACH (1)

# STRATEGY IMPLEMENTATION PLAN – APPROACH (2)

Note that:

- Indicators can be quantitative and qualitative
- If available, baseline values can be defined
- Frequency of measurement and reporting to be defined for each KPI

# STRATEGIC OBJECTIVE 3

## Build the EU's scientific assessment capacity and knowledge community (1)

No	Operational Objective	Expected outcomes	Implementing actions
1	<b>Set up and implement a common risk assessment and research agenda with Member States and EU agencies, in collaboration with international partners</b>	A common risk assessment and a common research agenda have been set-up, in cooperation with EU and International partners. Implementation actions have been planned and are regularly reviewed. Their implementation is ongoing via prioritised activities. EFSA's cooperation fora and grant/procurement schemes work in synergy and are instrumental to ensure capacity sharing and capacity building among the Member States and international/3rd country bodies in addressing core business needs, as well as the risk assessment and research agendas. This avoids duplication of activities and provides solutions to resource bottlenecks in EU risk assessment.	<ul style="list-style-type: none"> <li>• Set up an EU risk assessment agenda and common research agenda</li> <li>• Establish clusters with other EU Agencies and international partners to influence research</li> <li>• Streamline, optimise and integrate operations of EFSA's cooperation fora to maximise impact at national, EU and international level</li> <li>• Develop and implement innovative schemes to allow capacity sharing for core business needs as well as the risk assessment and research agendas (grants &amp; procurement)</li> </ul>

# STRATEGIC OBJECTIVE 3

## Build the EU's scientific assessment capacity and knowledge community (2)

No	Operational Objective	Expected outcomes	Implementing actions
2	<b>Foster the growth of the EU and international risk assessment community</b>	EFSA, Member States and International partners are cooperating closely to foster the EU and international risk assessment community: the necessary competences are identified and regularly reviewed, actions are in place to foster the development of the necessary expertise and capabilities, bottlenecks and incentives for attracting experts for EU risk assessment have been identified and are addressed; the sourcing with multidisciplinary risk assessment expertise has been improved.	<ul style="list-style-type: none"> <li>• Develop and implement an attraction package, a competency library, an external talent pool</li> <li>• Foster the continuous development of key, interdisciplinary competencies and capabilities for scientific assessment in the remit of EFSA, spanning young to senior scientists (e.g. training, mobility schemes)</li> <li>• Coordinate and target events and campaigns to support networking between relevant stakeholders</li> </ul>

# STRATEGIC OBJECTIVE 3

## Build the EU's scientific assessment capacity and knowledge community (3)

No	Operational Objective	Expected outcomes	Implementing actions
3	<b>Review and further develop EFSA's scientific assessment model</b>	EFSA has taken stock of best practises and has optimised its workforce model under the current regulatory regime, making best possible use of available capacities, getting timely access to the necessary expertise, and ensuring clarity in the roles and responsibilities of the different actors. EFSA is proactive in proposing and finding solutions with regards to its expertise needs and is prepared to address future challenges and opportunities.	<ul style="list-style-type: none"> <li>Review EFSA's workforce model, coordinate initiatives towards its optimisation and be prepared to address future challenges and opportunities.</li> <li>Explore, develop and use new ways of increasing risk assessment capacity:               <ul style="list-style-type: none"> <li>Crowd Sourcing</li> <li>Cognitive Computing</li> </ul> </li> </ul>
