## CONCLUSIONS & RECOMMENDATIONS FOR 2016

- Higher rates of FP activity on Art. 36 and SNs
- Apparent lower rate of activity on information exchange (due to phase out of IEP), still, high email exchange
- Compliance with mandatory activities (new template)
- Contribute to identify (new) tools for information exchange – pilot to start in EFSA in 2016 (with FPs)
- Very good FP work on the G&P domain - further promotion of submission of applications and consortia
- Continue national pooling of expertise and, where possible, use EDB information before phase out of tool
- Further promote EFSA and the work of FPs via (wider) events and make best use of available EFSA/FP material
- Further support RA training activities; make better use of available training material
- Further streamline interaction and information exchange between AF, FP and SNs – make use of available guidelines
- Improve information exchange on international cooperation
