

# POLISH REPRESENTATIVES TO EFSA's SCIENTIFIC NETWORKS RESULTS of SURVEY

Polish EFSA Focal Point

Warsaw, October 2015

*Special acknowledge for Greek EFSA Focal Point*

## BACKGROUND

The survey was carried out by the Polish EFSA Focal Point (FP) among the Polish Representatives to EFSA's Scientific Networks in October 2015. The questionnaire was sent to all 16 experts (both regular and alternate member to 14 scientific networks). Only 10 filled in questionnaires were sent back to the Polish FP, including one incomplete. The aim of the survey was evaluation of the cooperation between experts and EFSA, Polish FP, Advisory Forum member and national authorities. The questionnaire was prepared according to the Greek survey performed in 2014 (*the permission was obtained at the 23rd FP meeting*). The results were calculated as percentages corresponding to the total 10 responses received (only one answer for one question). or as percentage of the number of responses (several answers for one question).
