

21-22 March 2016
Praça do Comércio
Lisboa

"Actual Problems of Risk Assessment in Food Safety"

Actual Problems of Risk Assessment in Food Safety

Welcome participants and presenting the invited speakers

Andreas Hensel
Anja Buschult
Ulrike Pabel
Ralph Pirrow
Anna Kolbaum
Alexandra Fetsch
Mark Lohmann

Paulo Ferreira
(Secretary of State)

Helena Florêncio
(Scientific Council)

Pedro Portugal Gaspar
Filipa Melo de
Vasconcelos
M^a Manuel Mendes
Mafalda Costa

Hélder Muteia

(represents FAO in Portugal and CPLP)

Lisbon 21-22.03.2016

Actual Problems of Risk Assessment in Food Safety

Risk Assessment in Portugal

Scientific Council Role

Maria Helena Florêncio

Filipa Melo de Vasconcelos

PNCA – Portuguese National Sampling Control Plan

Maria Manuel Mendes
Ana Mafalda Costa

Lisbon 21-22.03.2016

“Food Safety and Risk Assessment in the European and Global Context”

- BfR Structure,
- remit,
- stakeholders,
- hot topics

Andreas Hensel

Concepts and Terminology in microbiological and chemical risk

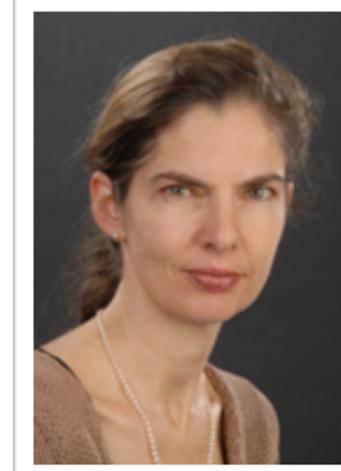

Anja Buschulte

Definition and legal framework of risk analysis

Risk assessment

Chemical
Phylical
Microbiological

Characterization of risk

Dietary Exposure Assessment

Anna Kolbaum

The importance of exposure assessment to quantify the risk

Brief characterization of methods used in Food consumption surveys

Data sources for dietary exposure assessment

Variability vs. Representativeness

Actual Problems of Risk Assessment in Food Safety

Taking a closer look: Examples for microbiological risk assessments

Identification

Organization

Risk analysis

Information

Alexandra Fetsch

Exemples

EU-wide outbreak of *Salmonella* Enteritidis 2014

E. coli O104:H4 outbreak Germany 2011

Actual Problems of Risk Assessment in Food Safety

Taking a closer look: Examples for Chemical risk assessments

Toxicokinetic vs Toxicity

Contaminants

DDT

Dioxins

Mycotoxins

PCBs

Heavy metals

Exemple

Occurrence of inorganic arsenic in rice

Ulrike Pabel

Ralph Pirow

Risk Communication

Mark Lohmann

Guidelines for communicating risks

Challenges in Risk Communication: Variety of Expert Opinions

Influence of social media on risk perception

Methods for assessing subjective risk perception

Actual Problems of Risk Assessment in Food Safety

Special Thanks:

Nicole Gollnick – BfR

Catarina Mendes Leal – ASAE

Cristina Rodrigues
