

# ANSES proposal for a COST action on nutrivigilance

## E-mail sent to FP on 13 January 2017

Nutrivigilance network / ANSES COST project proposal

## Background

2010: creation of a nutritional vigilance system called “nutrivigilance”

2014: exchanges on the topic to bring schemes together and raise awareness among other MS

Creation of a newsletter

Networking necessary to encourage cooperation on this subject

## Objectives of the COST action proposal (<http://www.cost.eu> )

Enhance cooperation among MS

Create a network of experts

Exchange information data

Build mutual understanding of emerging risks related to food supplements and fortified food

## Results expected

Promote harmonisation of assessment practices & methodologies

Reduce duplication of activities

RM at a European scale with data from all MS involved

## How to express an interest ?
