NOTE TO THE ADVISORY FORUM

Enclosed you will find EFSA's Preliminary Management Plan for 2007.

EFSA's Management Board has discussed this document at its meeting on 29th March and, as in previous years, it very much would like to collect the MS' views on its Working Programme as well.

At the meeting in Vienna, the document will be introduced and could be followed by an initial discussion. It would be appreciated if the AF members afterwards would discuss this document more thoroughly with colleagues in their MS. We would like to receive your additional comments and suggestions well before September.

At the meeting on 29th September in Bern, the AF is expected to finalize its recommendations on the Management Plan 2007, for consideration for the Management Board.
