

EFSA's scientific and administrative guidance documents to be updated in the areas of:

- ✓ FEED additives
- ✓ GMO (GM Food and Feed, deliberate release directive)
- ✓ Food ingredients (food additives, enzymes, flavourings, extraction solvents),
- ✓ Food contact materials
- ✓ Nutrition (Novel foods, Traditional foods, health claims, infant formulae, food allergens, food supplements)
- ✓ Pesticides (new active substances, re-evaluation of active substances, maximum residue levels, basic substances)
- ✓ Biological hazards
