

DEMETER: sharing data, knowledge and methods on emerging risks in a rapid and effective manner

Presentation for 76th Advisory Forum 2/7/20

Ana Afonso (EFSA) and Ákos Józwiak (Digital Food Institute)

DEMETER – ERKEP Prototype

- ERKEP short demo (<https://www.erkep.eu>)

EREN feedback 27/3/20

- ERKEP for information gathering (100%), information sharing (62.5%) and visualization (62.5%).
- ERKEP should be managed by EFSA
- ERKEP should be accessible by EREN members and observers (100%), Advisory Forum members and Focal points (87.5%), MS Art. 36 organizations (62.5%) and StaDG ER (62.5%),

Challenges

- Who shall maintain such a knowledge management system?
- Who shall bear the costs of maintenance?
- Systems change all the time with improving knowledge management and information analysis solutions: who shall continuously develop such a system?

Possible scope of future developments

- Redefine user needs
- Comprehensive user management system
- Task management and process management to support ERI
- Workflow development with new analysis and visualization possibilities

Next steps

Follow up to the DEMETER ERKEP Prototype – 1 year (BfR-EFSA FPA)

Development/Implementation of an Emerging risks knowledge exchange platform

	Possible timeline
Call preparation	July - Aug
Launch	September
Deadline for applicants	October
Evaluation	November
Signature	December - January

Thank you for your attention!
