

EFSA's Executive Director visit to ITALY

Luca Busani
Focal Point Italiano EFSA

Summary

- Organization of the official visit
- Scientific conference
- State of the art

Organization of the official visit

- Organization started November 2016
- Important changes occurred at the Ministry of Health (new director, new staff...)
- Problem in the definition of the appropriate dates of the visit
- Final decision: 14-15 December 2017
- Program of the activities
 - Meetings between EFSA's ED and national authorities, art. 36 representatives and other stakeholders

Official visit program

- 14 December 2017
- Morning: bilater meetings with italian authorities (MoH, ISS, others) at the MoH
- Lunch
- Afternoon: plenary meeting with art.36, experts, national representatives of stakeholders and official bodies involved in Food safety and Risk Assessment

Lungotevere Ripa, 1
00153 - Roma

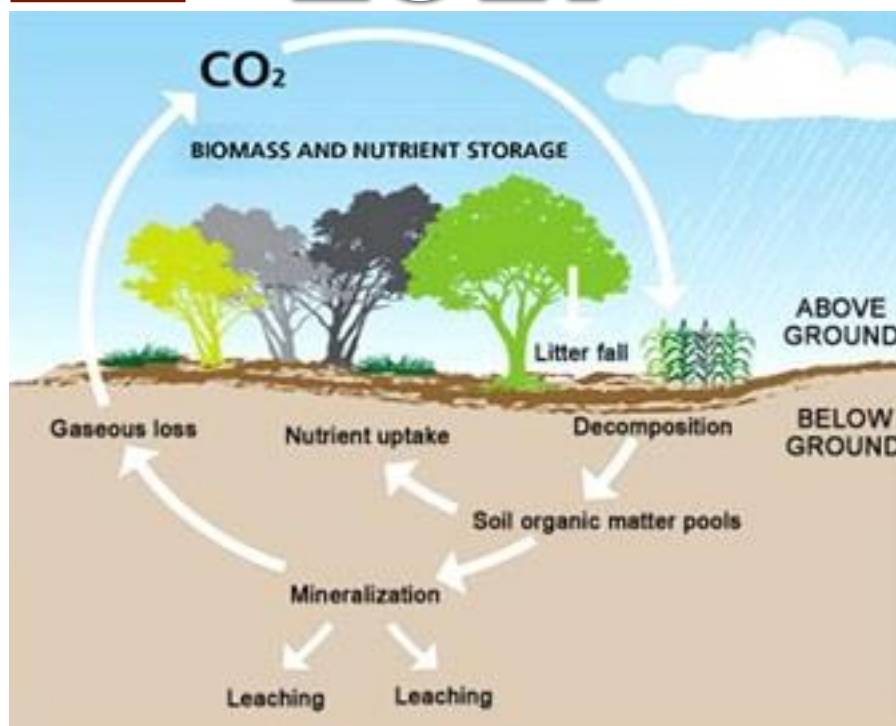

... social event and dinner at... SURPRISE!!

Almost everything is defined but... few things still awaiting confirmation...

- Rationale: promotion of the EU RAA and scientific cooperation
- Mycotoxins: a main priority of the Italian MoH
- Proposed as national project in the EU RAA "catalogue of ideas"
- Agreed with ISS, MoH and EFSA
 - A meeting between FP and EFSA experts and a TC between ISS and EFSA experts in January 2017
 - a grant proposal was sent on March 2017 to EFSA for the co-organization
- Attendance of a delegation of African countries

"The burden of mycotoxins on animal and human health"

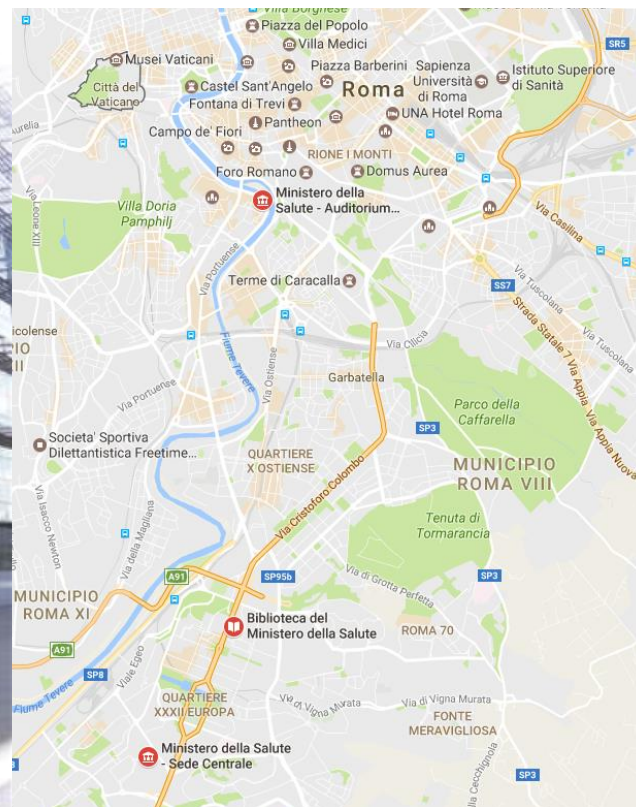

Mycotoxins 2017

- The scientific conference will be also the opportunity to present results of the EFSA-ISS scientific project BIODAF:
- "Biomonitoring data as tool for assessing Aflatoxin B1 exposure of workers"
- Other Partners:
 - Portugal: Instituto Politecnico de Lisboa
 - United Kingdom: Hull Royal Infirmary
 - Hungary: National Food Chain Safety Office
System Management and Supervision
Directorate (MoA)

Scientific conference

Auditorium of the Ministry of Health: 200 seats
Viale Giorgio Ribotta, 5 00144 - Roma

- Official visit 14^o dec. 2017: program almost finalised, logistics and services almost defined
- Scientific project BIODAF: partners contacted, main activities are starting
- Scientific conference: program almost finalised, speakers and key person confirmed, soon registration information and official communication will be released
