

39th Focal Point Meeting, EFSA,
22-23 May 2019

Audio Recording Survey

Julia Finger
Viktorija Krivova

Engagement and Scientific
Cooperation Unit (ENCO)

- In April 2018 EFSA introduced the Audio recording of FP meetings with the aim to find alternative/more efficient ways to report on FP meetings
- EFSA introduced this new feature as a pilot, considering to review it after one year
- The one year pilot has come to an end and EFSA would like to assess the exercise together with the FP

Have you ever **consulted** the audio-recordings after a Focal Point meeting?

Have you ever **shared** the audio-recordings of the FP meetings within your organisation or with third parties?

Do you feel comfortable expressing your opinion when the audio-recording is on?

In my opinion, access to the audio recordings should be:

- a. open
- b. restricted
- c. partially restricted on certain items, upon mutual agreement

Would you like to continue the audio recording practice in the future?

a. yes

b. no

Audio recording alternatives:

- a. Minutes produced by the Focal Point members on a rotating basis
- b. No minutes, only short summaries
- c. Audio recordings are taken, but kept in a protective environment
- d. Speech-to-text conversion
