

## Support on DATA related matters

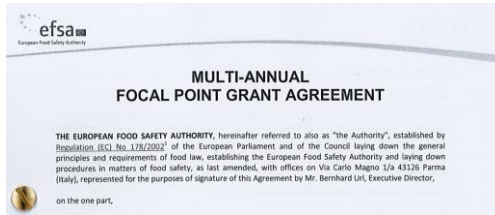

-

## Implementation of the tasks by the French FP

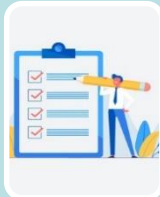

40<sup>th</sup> FP meeting, 4-5 September 2019, Sofia

# In practice

## Tasks as described in FP Agreement

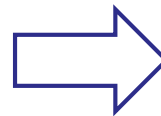

## Implementation by the French FP

FP maintains an up-to-date list of national data providers across data domains (areas) relevant to EFSA's remit

(e.g. contaminants, pesticide residues, etc.)

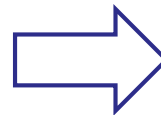

List established and available

FP supports EFSA in facilitating two-way communication with national data providers on a need basis

(e.g. when other communication channels do not work, or on cross-cutting issues)

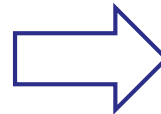

Facilitation of the communication at the occasion of the annual meeting of French SN rep

FP supports the promotion of best practices for sharing public sector information.

To this end, and if needed, the FP shall identify a national contact point to support the implementation of this activity

Raising awareness of the relevant ANSES departments of the importance of this issue, and identification of a contact person on this subject with a view to communication actions on this subject

**Thanks for your attention**
