

HEALTH • ENVIRONMENT • SOCIETY

**Can food be safe,  
nutritious, and  
sustainable?**

**What we see**

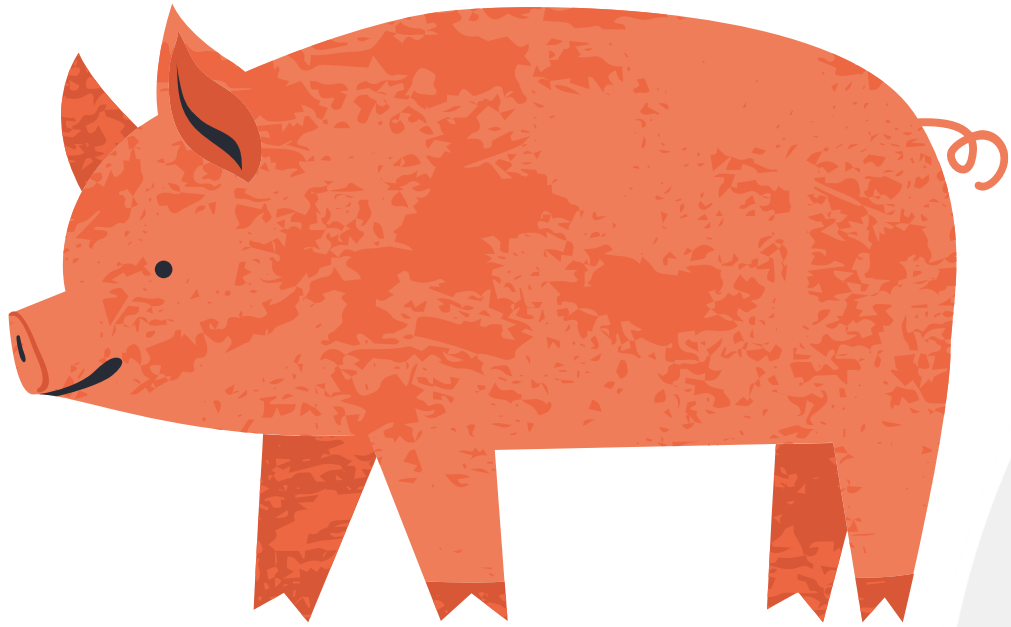

# What we don't see

Agricultural Practices

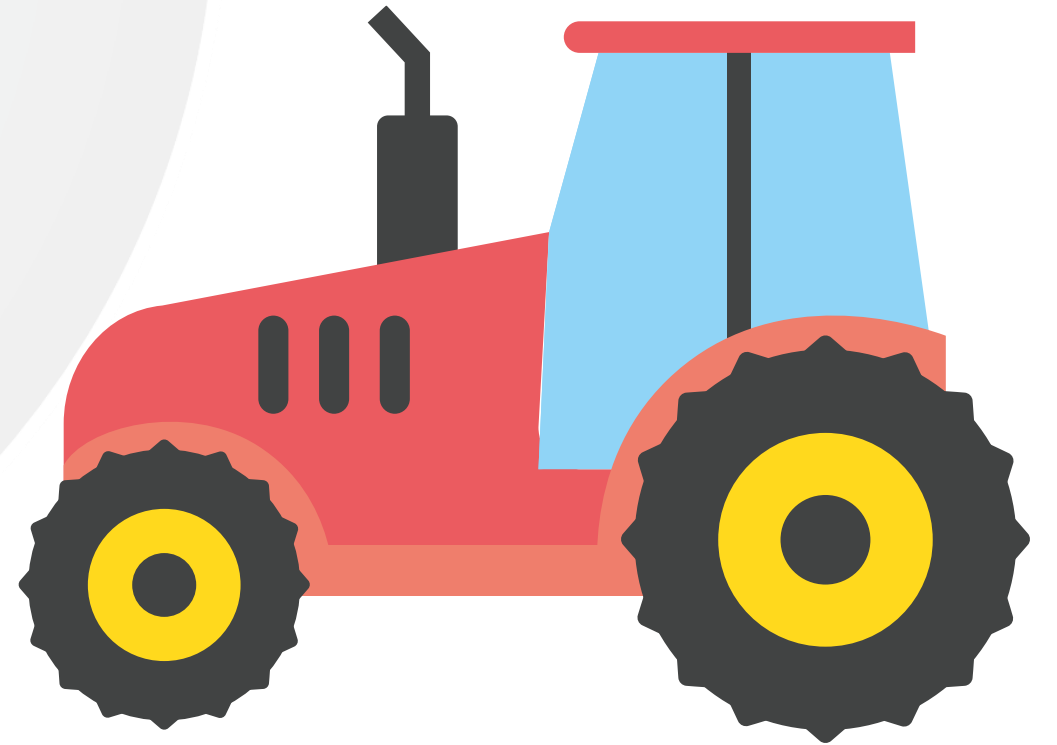

Carbon footprint

Human rights violation

1.5 °C

# Priorities in Youth Food Systems Spaces

Sustainable Healthy Diets

Access to Healthy and Nutritious Food

# Sustainable Plate Framework

Good policy

Account for true cost of food

Good investments

Production within planetary bounds  
and low environmental impact

Respect for human & animal dignity

Knowledge sharing
